

## Opposition to Low Bridge Over Red River

TEXARKANA, Ark. (AP) — A wave of opposition developed Thursday at a hearing on a low-level bridge rivermen said would shear the top off plans to make the Red River navigable.

The hearing was on an Arkansas Highway Department application for permission to build a bridge 5.1 feet above the high-water level to take Interstate Route 30 across the river.

Col. Edward B. Jennings of the New Orleans District of the Corps of Engineers, who presided, said he had received written protests from about 30 organizations and individuals. He said they included Arkansas, Texas and Louisiana Senators and congressmen.

Jennings took the application under consideration and said he would try to make a quick decision.

L. R. Matthias of Shreveport, La., executive vice president of the Red River Valley Association, said his group is opposed to the bridge unless it has at least 50 feet of clearance at high water.

Bridge engineer L. P. Carlson said a higher bridge would cost another \$1 million. A study of the feasibility of making the Red River navigable won't be available until 1965, he said, and it is not known whether the stream will be navigable.

Waiting until 1965 would delay opening the bridge until 1968, Carlson said.

Matthias countered with an Army Engineer study of the river from Denison Dam in Texas to its mouth which he said was expected to show that the river can support navigation. The study will not be completed until 1965.

L. E. Gilliland, manager of the Texarkana Chamber of Commerce, said the bridge would preclude consideration of navigation beyond Fulton and reverse attempts at industrial development of the Red River Valley.

## Weather

Experiment Station report for 24 hours ending at 7 a.m. Friday High 95, Low 56.

ARKANSAS — Fair with warm days and cool nights through Saturday; high today 88 to 96; low tonight 45 to 55.

(T)—Trace

EASTERN and SOUTHERN MISSOURI — A chance of a few brief showers in the extreme northeast this morning; otherwise partly cloudy northeast, fair south and becoming generally fair this afternoon, tonight and Saturday; turning cooler today and tonight; high today near 80; extreme northeast to around 90; south; low tonight in the 50s.

## County Poll Tax Purchases Up

LITTLE ROCK (AP)—The upward trend in poll tax payments was resumed today as three more counties reported to the state auditor's office. All showed higher totals for 1963. Than for the record year 1960.

A total of 44 counties now have reported issuance of 305,000 305-919 poll tax receipts, an increase of 19,457 over 1960.

Four counties have reported lower poll tax sales and all of these were in Thursday's figures. Reporting today, with the 1960 figure in parentheses were:

Hempstead 7,551 (7,216); Independence 7,915 (7,748); St. Francis 8,553 (7,198).

## Says Women Must Fight for Breaks

By NEIL GILBRIDE

WASHINGTON (AP)—Modern women aren't getting an equal break in what is still largely a man's world, President Kennedy's Commission on the Status of Women reported today.

And Uncle Sam, like most males, is going to need a little prodding by the ladies themselves if they want to improve their lot. While containing no startling recommendations calculated to rattle the male ego, the commission did recommend that Kennedy take a firm hand toward giving women a larger role in the home, community, on the job and in civil and political life.

The 86-page report also called for better protection for women under the law, but saw no need for a constitutional amendment guaranteeing them equal rights.

The 13 women and 11 men on the commission said women already have equal rights under the constitutional provisions guarding against deprivation of life, liberty and property. But they stressed the need for legal clarification of women's rights.

The commission's major recommendations were:

1. A presidential executive order to encourage equal treatment for women in private employment and also under federal contracts. It noted Kennedy has already moved in that direction in a 1962 directive to federal agencies.
2. A federal program to encourage adult education for women, who generally outlive men and can look forward to many useful years after raising their families.
3. A cabinet officer designated by the President to make certain that the commission's recommendations are carried out, and a citizens committee to keep a check on progress.

NAHA, Okinawa (AP)—Water rationing will begin on Okinawa Monday as the result of the worst drought in 70 years. Both Ryukyuan and U.S. military areas will be cut to seven hours of water a day.

## Water Rationing on Okinawa

NAHA, Okinawa (AP)—Water rationing will begin on Okinawa Monday as the result of the worst drought in 70 years.

Both Ryukyuan and U.S. military areas will be cut to seven hours of water a day.

## New Postmaster

CROSSETT, Ark. (AP)—Lexie Woods is to take office Friday as Crossett postmaster, succeeding Phillip Gates, who retired a year ago. Leslie Jeffers, acting as postmaster since Gates retired, will return to his former post of assistant postmaster.

## Making Good at the Piano Takes a Lot of Hard Work and Good Encouragement

By HAL BOYLE

NEW YORK (AP)—When Buddy Greco was 4 years old, his father drew a keyboard on the kitchen table.

"Now learn to play the piano," he commanded.

The small boy faithfully practiced fingering exercises on his make-believe piano, then went on to become a skilled performer on a real piano in a settlement house near his home in South Philadelphia.

At 16, Buddy had to quit school. His mother and father were ill, his older brother was in the service. Buddy got a \$60 a week job as an accompanist for a strip-tease dancer.

"It was very exciting work at that age," he recalled, "but the job only lasted a week."

Greco drifted from job to job. He toured the world for two years as singer-pianist-arranger for Benny Goodman's band. He wrote more than two score songs of his own.

Then he organized his own cocktail lounge trio, singing sentimental songs while accompanying himself on the piano. Over a 17-year period Buddy figures he sang in some 500 cocktail lounges.

"I knew I had talent, but I wasn't acting anywhere," he recalled. "I became cocky and bitter, and I hated the world."

In 1958, his frustrated hunger for recognition led to an emotional collapse. Greco lost his voice for six months.

VICTIM OF FLOOD — Italian Alpine troops carry a victim from the wreckage of a car of Longarone, Italy, which was in the path of a flood unleashed over the Vajont Dam by a massive landslide. Rescue workers estimate 3,000 persons were killed in a half dozen shattered villages when pressure of the water behind the dam caused part of it to give way.

## No News on the Missing Teacher

SEARCY, Ark. (AP)—The fate of missing Harding College professor Mrs. E. R. Stapleton remained unknown today, but police in Lubbock, Tex., were holding two transients on charges of fraud by wire in connection with her disappearance last Tuesday.

FBI Special Agency Roy K. Moore said in Little Rock that Gray Chandler and Carl Karash were arrested in a Lubbock drug store while demanding money by telephone from Mrs. Stapleton's husband.

Dr. Stapleton held the pair on the line for 30 minutes until the arrest was made, Moore said.

Chandler and Karash were held at Lubbock under bonds of \$2,500 each.

Mrs. Stapleton, 57, disappeared Tuesday night after going to a washateria in Searcy. Her car was found parked by the washateria.

Tire shops on either side of the washateria were burglarized that night. Sheriff Jack Price theorized that burglars may have kidnapped Mrs. Stapleton.

Some 600 male students made a door-by-door check of Searcy Thursday and combined surrounding wooded areas in search of the missing woman.

Joe Pryor, dean of the college, said the group found some clues which may be significant. He said students turned up "information concerning the unusual occurrence of the same car in certain places and two men in different places."

He would not elaborate.

Price said the FBI is not participating in the investigation but is watching developments to determine if a federal violation may be involved.

## Soldier Sold Secrets to the Russians

By BARRY SCHWEID

WASHINGTON (AP)—The Pentagon has disclosed that a decorated American soldier sold U.S. secrets to Soviet agents over a two-year period, then took his life last July as investigators zeroed in on him.

Sgt. I.C. Jack E. Dunlap's alleged espionage dealings with the Reds while he served the super-secret national security agency as a clerk-messenger were detailed Thursday night by Asst. Secretary of Defense Arthur Sylvester after the Washington Evening Star had broken the story.

Dunlap, an 11-year veteran who was wounded and decorated during the Korean War, sold "certain classified materials" to Soviet agents "for the sole purpose of receiving a monetary reward."

The Pentagon public affairs chief said the material did not include U.S. codes and ciphers—the most sensitive items handled by the agency—and that there is no indication other employees were involved or knew about Dunlap's dealings.

Sylvester declined to go into detail about the classified material or say whether the government knows the identity of the Russian agents.

In its copyrighted story, the Star described Dunlap, a 35-year-old native of Bogalusa, La., and the father of five, as a high-living horseplayer and ladies' man who received about \$60,000 from the Russians.

The Pentagon said Dunlap killed himself last July 23 by running a hose from the exhaust pipe into a window of his parked car near Ferndale, Md. Shortly after the suicide, classified documents were found at his home.

Russia Admits Economy Lag

By THE ASSOCIATED PRESS

MOSCOW (AP)—Soviet authorities made a rare concrete admission today that their economy is far behind that of the United States.

They said the productivity of Soviet industrial workers is from two to two and a half times lower than that of American workers.

The statements were made by Moskovskaya Pravda, official organ of Moscow's Communist party organization.

Echoing Premier Khrushchev, the newspaper claimed the lag will be wiped out in the next 10 years.

Gathings Against Sale of Wheat

WASHINGTON (AP)—Rep. E. C. Gathings, D-Ark., announced Thursday that he not only is in favor of selling American wheat to Russia, but also would like to ship American cotton to the Soviets, too.

"It would not in any way make a stronger military potential out of Russia and her satellites to sell them cotton of which we have so much," Gathings said.

Gathings said he would like to see "sizeable" amounts of U.S. cotton sold to the Soviets in exchange for gold or dollars.

## Minor Damage in Accident

At Third and Hazel Streets yesterday autos driven by A.P. East of Rosston and Mrs. Lloyd T. Hurst of Michigan collided with only minor damage resulting. Officers Rowe and Martin of the City Police investigated.

## Protest Is Filed for Convoy Stop

WASHINGTON (AP)—The United States protested to the Soviet Union today against the holding up of U.S. troop convoys on the highway connecting Berlin and West Germany.

A convoy of 18 American vehicles and 61 men was delayed for 16 hours Thursday at the West German entrance to the highway, and then stopped a second time today as it approached West Berlin.

Secretary of State Dean Rusk summoned Soviet Ambassador Anatoly F. Dobrynin to his office this morning to protest against this latest harassment of American troops on the autobahn.

It was not immediately known whether Rusk made an oral protest or handed the Soviet diplomat a note. Newsmen were told only that Rusk was making a protest.

The incident on the vital highway linking West Berlin with the West coincided with talks between President Kennedy and Soviet Foreign Minister Andrei Gromyko in Washington, seeking ways to ease East-West tension.

U.S. officials declined immediate comment but recalled that on previous occasions the State Department was satisfied with the handling of such incidents by occupation authorities in West Berlin. It is considered significant here that Rusk thought it necessary to handle the affair himself.

## Creditors Reject Firm's Proposal

JONESBORO, Ark. (AP)—Seven

teen creditors representing \$256,247 of the indebtedness of Scott Valve Co. rejected Friday the firm's proposal to pay out 20 cents on the dollar to save itself from bankruptcy.

The plan was approved by 121 creditors who claim \$92,939 in debts.

The creditors met with company officials before Referee in Bankruptcy Arnold M. Adams.

Adams recessed the meeting for consultation after the creditors' votes were tabulated. It was to be resumed later today.

The Blytheville firm disclosed Sept. 17 that it had lost \$180,000 in the preceding 11 months and filed a plan in U. S. District Court for paying \$608,057 owed to 293 unsecured creditors.

The plan provided that all unsecured creditors whose claims were less than \$100 be paid in full; those whose claims were more than \$100 could accept \$100 in cash or 20 per cent of the amount due.

The company also said it would need a new lease from the Blytheville Industrial Development Corp. reducing rent on the plant building from \$18,163 yearly to \$14,600.

The plant was financed through a 1961 bond issue approved by Blytheville voters.

## Habitual Criminal Gets 25 Years

WICHITA, Kan. (AP)—Judge

Howard C. Kline determined Thursday that John Oscar Engberg, 20, of Denver, Colo., was an habitual criminal and sentenced him to 25 years in prison.

Engberg one of two men who twice escaped custody of Wichita officers, pleaded guilty to six counts of first degree robbery and escaping from custody.

Oscar Floyd Wharton, 36, of Little Rock, who escaped from the Wichita jail with Engberg pleaded innocent and will be tried before a jury. No trial date was set.

Engberg and Wharton escaped from the Wichita jail Sept. 25 and were recaptured at Little Rock Sept. 28. They overpowered detectives while being taken back to Kansas on Oct. 1 and were recaptured in Arkansas several days later.

Wharton also is charged with armed robberies on Aug. 22 at a motel at Eudora, Ark., and two night clubs in Wichita.

## No Fish in State

LITTLE ROCK (AP)—H. Layton

Lindsey, vice president in charge of the Arkansas Division of the Kroger Co., said Thursday that Arkansas Kroger stores have never stocked the smoked whitefish blamed for two botulism deaths in Knoxville, Tenn.

# Amid Talks to Ease Tension Russia Bars Gateway to Berlin

## Gromyko and JFK Discuss Many Issues

By ENDRE MARTON

WASHINGTON (AP)—The White House discussion between President Kennedy and Soviet Foreign Minister Andrei A. Gromyko ranged from Cuba to the moon but neither side gave an inch on major East-West issues, informants said today.

However, no big changes in Soviet positions were expected by the President or his advisers, and officials pictured Thursday's talks as being exploratory, with Moscow and Washington sounding each other out to see if there may be new fields of understanding after the limited nuclear test ban.

Both Kennedy and Gromyko were described as relaxed as they sat across from each other—a notable change in atmosphere from the last time Gromyko was a White House caller.

Ironically, that was just short of one year ago—Oct. 18, 1962—and Kennedy, who already had seen the now famous aerial photographs, asked Gromyko if the Soviet Union was building missile sites on Cuba and Gromyko said no.

Cuba was among the world problems Kennedy and Secretary of State Dean Rusk discussed with Continued on Page Three

## GA's Plan Installation of Officers

The 9 and 10 year Junior GA's

met earlier this week to elect officers who will be installed at the meeting October 16, 5:00 p.m. The auxiliary is named "Wanzell GA", for Mrs. Wanzell Rodriguez, Southern Baptist Home Missionary, Denver, Colorado (formerly Wanzell Nix of Hope). Mrs. Frances Reynerson is the Counselor, and Miss Kathy Thrash is the Asst. Counselor.

The following officers will be installed: Beckie Moore, President; Dee Singleton, Vice President; Debbie Gunter, Secretary; Toni Polk, Treas.; Rita Taylor, Librarian; Program Chairmen, Judy Hummick and Jeanine Koon; Prayer Chairmen, Nancy Leverett; Community Missions, Polly King and Kay Stephenson; Missions Study, Barbara Hollis; Forward Steps, Patie Murphy; Social Chairman, Julia Behl Barber.

The following officers will be installed: Beckie Moore, President; Dee Singleton, Vice President; Debbie Gunter, Secretary; Toni Polk, Treas.; Rita Taylor, Librarian; Program Chairmen, Judy Hummick and Jeanine Koon; Prayer Chairmen, Nancy Leverett; Community Missions, Polly King and Kay Stephenson; Missions Study, Barbara Hollis; Forward Steps, Patie Murphy; Social Chairman, Julia Behl Barber.

## Reds Get Death for Stealing

MOSCOW (AP)—Eleven Soviet citizens have been sentenced to death in the Soviet republic of Uzbekistan for stealing.

The newspaper Pravda Vostoka (Pravda of the East) said six were convicted of stealing \$897,000 worth ofilk from a factory near Tashkent.

The other five were convicted of stealing 60,000 photograph records.

## Oklahoman Blasts Life Magazine

CINCINNATI (AP)—Rep. Ed Edmondson, D-Okla., fired a verbal broadside at Life Magazine Thursday and labeled an unnamed United States Senator — obviously Barry Goldwater—as an enemy of inland waterways.

## People in the News of the World

By THE ASSOCIATED PRESS  
AMMAN, Jordan (AP)—A sec-  
ond son was born today to King  
Hussein and his British-born wife,  
Princess Munca.  
Both Princess Munca and the in-  
fant were reported doing well.  
The couple's first child, Crown  
Prince Abdullah, was born in  
January 1962.

CONCORD, Calif. (AP)—Ac-  
tress Mamie Van Doren says she  
and playboy-pitcher Bo Belinsky  
of the Los Angeles Angels finally  
struck out in their on-and-off ro-  
mance.

She said things got to the point  
where she had a blood test, a  
bought and wedding dress and  
was set for an elopement this Sun-  
day to Las Vegas.

"But we had a quarrel last Fri-  
day night," Mamie said. "The  
whole thing was called off for  
good Tuesday."

"I've had my romance for the  
year."

## COPENHAGEN (AP)—Temple

Fielding, the American writer,  
wound up a 5-day birthday party  
and left Copenhagen for a Danish  
sanatorium where he can't get  
any liquid refreshment stronger  
than carrot juice.  
"I'm in kind of a daze, but I  
think we had some fun, didn't  
we?" said Field, as he bade good-  
by to guests from 18 nations who  
flew to Denmark for the party.

Fielding, 50, called it "the party  
of the century" and said he'll  
pay the entire bill.

REALTOR OF YEAR AND NEW OFFICERS—HOT SPRINGS

—Jimmy Taylor (right), of Fort Smith, was named Realtor of the Year here last Friday night at the close of the 39th Arkansas Real Estate Convention. New officers are, from the left, Verdon M. Bennett, of Fort Smith, secretary-treasurer; Delmer Sagely, Fort Smith, president; and Bob Cheatham, Texarkana, vice president. The convention was attended by 300 persons, an all-time record.

## President to Hold News Conference

By J. W. DAVIS

WASHINGTON (AP)—Presi-  
dent Kennedy will star again this  
afternoon in a popular television  
show, his White House news con-  
ference.

It's a show that works well for  
him and his administration or  
else, of course, he would drop it.  
It helps his public image, as the  
saying goes.

And, since the President is such  
a skillful politician, the question  
arises: Why is Congress so cam-  
era shy? Its image could stand  
a little polishing.

Let it be noted here that individ-  
ual members of Congress don't  
dodge the photographers. They  
are always glad to be in a picture  
for the folks back home. Still  
photographers are welcome at  
committee meetings.

But in the mass, it's different.  
There never had been an officially  
permitted picture of the Senate  
in action until last month. The  
House won't allow its picture to  
be taken except when members  
are being sworn in at the start  
of a session, or when there is a  
formal joint session with the  
Senate.

The Senate does permit televi-  
sion cameras to film committee  
proceedings, as in the case of the  
crime hearings starring gangster  
Joseph Valachi. The House won't  
even let television into a commit-  
tee room.

There are two main reasons  
why the Senate and House bar  
photographers from their floors  
and galleries.

First it would seriously embar-  
rass either body to have pictures

## Quick Knockout

LOS ANGELES (AP)—Adolph  
Pruitt of St. Louis, a promising  
lightweight protege of Henry Ar-  
mstrong, caught Art Hayward of  
Los Angeles with a left hook  
Thursday night for a knockout  
after 47 seconds of the second  
round at Olympic Auditorium.

## Calendar

Friday, October 11

The Jr. Sr. High P.T.A. Parent Study group will meet Friday, October 11, at 10 a.m. in the Home Economics Cottage.

Mrs. Sam W. Strong, Chairman, announces the discussion topic, "Education of a Modern Girl."

The Hope Country Club will hold a house after the Crosssett-Hope football game Friday night. All members are invited.

The McCaskill Community is giving a house keeping shower this Friday night for Mr. and Mrs. James Scott who lost their home and all of its contents, caused from fire.

All friends are invited to come at 7:30 to the Community Building. Light refreshments will be served.

Monday, October 14

Wesleyan Service Guild Number One of the First Methodist Church will meet Monday evening, October 14, in the home of Mrs. B. C. Hyatt at 321 West Ave. C, with Mrs. Glenice Porter as associate hostess. Ben Edmiston will lead the program.

Ann Wollerman Circle of the First Baptist Church will meet Monday, October 14 at 7:30 in the home of Mrs. Aline Johnson, 704 East 3rd St.

All members are urged to attend.

The Brownie Troop 64 of the Brookwood and Paisley schools will have their first meeting at the Little House Monday, October 14.

Transportation will be furnished from the school. Parents are asked to pick up their children at 5 p.m. This troop is sponsored by the VFW and Auxiliary Post 4511.

All circles of the W.S.C. of the First Methodist Church will meet Monday, October 14 at 2 p.m. at the church.

Tuesday, October 15

Sr. Girl Scout meeting will be held Tuesday, October 15, at 4 p.m. at Mrs. Seaman's.

All Sr. Girl Scouts and girls in the 10th and 11th grades interested in joining the troop are invited to come.

Parent night at Hope Jr. Sr. P.T.A. will be held Tuesday night October 15 at 7:30 in the High School auditorium.

Executive board will meet at 7 p.m.

The Hope High Stage Orchestra will begin playing at 7 p.m.

A social hour will follow.

The Brookwood Parent and Family Life Education Group will meet Tuesday morning October 15 at 10:00 a.m. in the home of Mrs. J. V. Moore, Jr.

Wednesday, October 16

Mrs. R. L. Gosnell will present her "summer pupils" in a Recital Wednesday, October 16 in the Junior High auditorium for their parents and friends.

Blevins P.T.A. Meets

The Blevins P.T.A. met Thursday, October 10 in the school auditorium with good attendance. The president, Mrs. Dale Yocum, called the meeting to order and had a brief business session.

A panel made up of the parents and teachers gave a lengthy discussion on "Does our School meet the needs of our children?"

Refreshments were served and a social hour followed.

WMS Meets

The W.M.S. of the First Baptist Church began a new year with a meeting in the Educational Building Monday, October 7, at 11:30.

Before a pot luck luncheon was served, a business period was held with Mrs. Forest Singleton, 1963-64 president, was in charge. Mrs. Herbert Honeycutt led in the opening prayer. Various reports were heard and approved and the Executive committee

## Tells About Crime Take in Detroit

By G. MILTON KELLY  
Associated Press Staff Writer

WASHINGTON (AP) — Police Commissioner George C. Edwards of Detroit told Senate crime probers today that Mafia mobsters gross \$150 million a year in his city from rackets and have "infiltrated legitimate businesses worth a minimum of another \$50 million."

Despite this and 69 gangland murders counted in the Detroit area since 1927, he said, "it is the cleanest and least racketridden big city in the country."

Edwards said the Detroit Mafia structure appears to be "similar to and directly connected with" the nationwide crime syndicate called Cosa Nostra which mobster-informer Joseph Valachi described in five days of testimony to the Senate Investigations subcommittee.

Firmly, Edwards told the subcommittee he was talking from information his men have developed themselves in the years-long fight against organized crime, not on the basis of anything learned from Valachi. He said neither he nor his police have even interviewed Valachi.

Edwards said the Mafia seeks to build a false front of legitimacy to mask its infiltration of the business world. Neatly dressed gangsters, leading outwardly respectable lives, are used for this purpose, he said. He called them "Jekyll and Hyde characters" who wield great power.

## Guerrillas Killed

SAIGON, Viet Nam (AP)—The government announced today 64 Communist Viet Cong guerrillas were killed and two captured when they briefly overran a strategic hamlet in Binh Dinh province, 270 miles northeast of Saigon Tuesday.

Fee, and cold drinks for refreshments.

## Coming and Going

Mrs. Earl O'Neal will spend the weekend in Little Rock with her three sisters, Mrs. Charles L. Williams, Man. W. Van; Mrs. Marian Fitzgerald, Marianna; Mrs. Russell Khilling, Ft. Smith.

Mr. and Mrs. Albert Graves left Thursday for Summit, N.J. to see Mr. and Mrs. Hunter Long and son.

Mrs. Tully Henry underwent surgery Wednesday at Wadley Hospital in Texarkana. Her room number is 534.

## DOROTHY DIX

HIS ARDOR UP WHEN SUN IS DOWN

By HELEN WORDEN ERSKINE

Dear Helen: A month ago I met a dreamboat boy who comes from a fine family, has a good job, looks and is a perfect gentleman. My problem is his passionate kisses when the sun goes down. He's had affairs in and out of the Service, been engaged twice and dated older women. One of his ex-fiancées still writes to him. He insists I am his one-and-only now and talks of marrying me if I'll have him. But I doubt if he means it because he only talks that way after dark.

Though not as experienced as he, I'm not dumb. He never gets very far with his kissing and never will, unless we marry. I am a good girl and frankly, that worries me for if I don't do as he wants, I fear he'll find romance elsewhere. You see, I love him and therefore, am trapped.

Should I take him seriously and believe he has really reformed or play it cautious and save myself from being just another one of his "has-beens"?—In-the-Middle

Dear In-the-Middle: Your friend reveals his true colors after sundown. The line he's feeding you is as old as the light of the moon and as phony. The moon has no light of its own.

The mere fact that he's been engaged several times should make you realize that other girls realized he was a bad marriage risk before it was too late, assuming they broke the engagements. If he broke the engagements that puts him in an even worse light.

Do you really want to add your name to that casualty list or would you marry him (provided he momentarily means what he says) and risk becoming a divorcee?

If you have only known this man a month, I don't know why you consider yourself "trapped." But, since your emotions seem so deeply involved, my advice would be to beat him at his own game and give him the gate before he does you. Many a fish has disentangled itself from the hook even after it's on the line. The best ones always get away. My leaflet, "Are You Sure It's Love?" could be of help. Send a stamped, self-addressed envelope for it.

Dear Helen: When women and men say they can't live without each other they just haven't tried. My husband started cheating on me a couple of years ago and, as a consequence, I find myself turning elsewhere for love.

The man in the case is, like myself, married and has children. We are both old enough to know what life is all about but rather than hurt our children, refrain

from physical contact and rarely meet, save in the presence of others. Once the children are grown and on their own, we can take our happiness.—Waiting

Dear Waiting: In the last analysis each one of us has to solve his or her problem to his or her own satisfaction. Apparently you have done this.

Dear Helen: I am planning my second wedding. It is to be fairly simple with one attendant and myself wearing pastel, street-length gowns. I had originally asked my brother to give me away but was advised this would not be in good taste. Since we have already chosen our two ushers, would it be out of line for him to be a third usher? He is very close to me and would be hurt if excluded. The ceremony will be in a small country church with two aisles and we are expecting approximately 100 to 150 guests.—Anxious

Dear Anxious: Generally, the bride's father gives her away. But there is nothing wrong with your brother performing this function.

Have you a problem? Perhaps Helen Worden Erskine can help you. Write her in care of this newspaper, enclosing a stamped, self-addressed envelope.

## Kennedy Aide Gets Divorce

WASHINGTON (AP) — Theodore C. Sorensen, a key figure in the White House inner circle, and his wife Camelli, 34, have divorced after 14 years of marriage.

Sorensen, 35, an aide to President Kennedy since 1953, is special counsel and a principal adviser to the President.

The former Mrs. Sorensen disclosed today at her home in Madison, Wis., that they were divorced last July. She declined to give any details but said they had been separated for three years.

## Firing of One Officer Upheld

LITTLE ROCK (AP)—The Little Rock Civil Service Commission upheld Thursday the firing of one Little Rock police officer, but reduced another dismissal to a 30-day suspension in a hearing.

L. B. A. Griffith's discharge by Acting Police Chief R. E. Brians was upheld. The dismissal of Patrolman Ernest Vint was changed to a suspension.

Brians dismissed the two offi-

## Gromyko and

Continued From Page One

Gromyko Thursday.

"Kennedy is understood to have restated the U.S. position that the remaining Soviet troops must be withdrawn from the island. Though U.S. officials declined to say what Gromyko answered, they recalled when the same issue was brought up in Moscow last summer Soviet Premier Khrushchev told Rusk there are no Soviet combat troops in Cuba, only training units, and that they would stay.

The test ban treaty went formally into force Thursday and Khrushchev sent messages to Kennedy and British Prime Minister Harold Macmillan urging settlement of "other ripe international issues."

His statement said the treaty showed a shift for the better in international relations but did not eliminate the danger of war which he called "the main international problem of our age."

The Soviet Union, he said, was ready to exert new efforts to see that this new shift in events would become the beginning of a "sharp turn toward a considerable relaxation of international tensions."

After the conference Gromyko said "both sides expressed willingness to broaden the field of questions on which understanding is possible."

The Kennedy administration, informants, said, agrees with Gromyko, but much further exploration is needed to find specific issues on which such an understanding can be reached.

## Congressmen in Malaya for Visit

KUALA LUMPUR, Malaya (AP) — Eight U.S. congressmen arrived today to give America's greetings and good wishes to the newest nation of the world—The Federation of Malaya.

The group, headed by Rep. Clement J. Zablocki, D-Wis., chairman of the House Far East subcommittee, flew in from Singapore. There it received a special briefing on Indonesia from the U.S. ambassador to Jakarta, Howard P. Jones.

Zablocki told newsmen the report of his mission to Southeast Asia would be submitted to the House Foreign Affairs Committee and no details would be released abroad.

cers and Patrolman W. R. Darden after Theodore Shaw, 24, a Negro, charged that he was severely beaten by officers on the Arkansas River bank Sept. 15.

Adams said a hearing on Darden's appeal would be next Thursday.

## Few Areas Sold Fewer Poll Taxes

LITTLE ROCK (AP) — Three North Arkansas counties with strong Republican sentiment and Bradley County in South Arkansas today broke the rising trend of voter qualifications.

Newton, Searcy, Benton and Bradley counties reported to the State Auditor's office today that they had issued fewer poll tax receipts for the coming year than in 1960 when the record statewide registration of 603,795 was set.

State Auditor Jimmie (Red) Jones said the drop in the North Arkansas counties probably was due to failure of Republicans to pay the poll tax because the current receipt will not cover the 1964 general election. The year 1960 was a general election year.

Jones said he did not understand the reason for the drop in Bradley, which traditionally has been heavily Democratic.

Nine more counties reported poll tax figures today, making a

## Faubus Claims Mail Favorable

LITTLE ROCK (AP)—Gov. Orval F. Faubus continued to brandish his mail against President Kennedy Thursday, saying it was running 50 to 1 in support of his criticism of Kennedy's civil rights program.

Faubus delivered the criticism at Heber Springs Oct. 3 at the dedication of Greers Ferry Dam. Before the President came to Arkansas, Faubus announced that most of his mail was unfavorable to Kennedy's visit.

"This has been the biggest deluge of mail since (the Little Rock bus told a civic club audience.

total of 41 with reports in, and only these four show a decrease.

So far 281,920 poll tax receipts have been issued, 17,620 more than in the same 41 counties three years ago.

Counties reporting today, with the 1960 figure in parentheses, were:

Grant 3,832 (3,567); Faulkner, 11,291 (9,774); Lee, 4,226 (4,146); Van Buren 3,631 (3,279); Newton 2,680 (3,523); Searcy, 3,451 (4,397); Benton 13,882 (14,561); Bradley, 5,362 (6,018); Cleveland 3,144 (2,965).

**Elderly Woman Burned to Death**  
BENTONVILLE, Ark. (AP)—An elderly woman was burned to death and a man was critically hurt in a fire at the McNelly Home for the Retired today.

The fire in the two-story frame structure was noticed at 8 a.m. Some 30 to 40 other residents escaped.

The names of the victim and the injured man were not learned immediately.

Sheriff Hugh Black said Bill Wayne Melton, a trusty at the county jail across the street from the home, carried four persons to safety, one from the second floor.

The residents of the home were taken to a local church until a suitable place could be found for them.

It took the Bentonville fire department about 45 minutes to get the fire under control. Jim McNelly, owner of the home, said the fire was started by a cigarette.

**Robbery Charge**  
By THE ASSOCIATED PRESS  
LITTLE ROCK (AP)—Carroll D. Mallett, 25, of North Little Rock, was charged in Circuit Court Wednesday with the \$887 robbery of a supermarket in North Little Rock Sept. 28. He was arrested by police a short distance from the store after the robbery.

Ruth Hicks  
Phone 7-4678 or 7-4474

**Church Notice**  
There will be a PEW RALLY at the Rising Star Missionary Baptist Church Sunday, Oct. 13, 1963 at 3:00 p.m. Sponsored by Miss Alice Witherspoon and her Maids.

They will represent our church in the Princess Review in the Southwest District Association in Texarkana, Arkansas.

Miss Alice Witherspoon-Queen, Miss Jessie Witherspoon-Maid, Miss Bobbie Morrison-Maid. Each PEW captain will have a number, and their guest will sit in their PEW, also each PEW will give a number on the program.

There will be two prizes given. One for the largest number in the PEW, and one for the PEW that raises the highest amount over \$5.00.

Mrs. S. L. Riley-Chairman, Reverend M. S. Riley-Minister

**Thought for The Day**  
It ain't no disgrace for a man to fall, but to lie there and grunt is. Josh Billings said it.

**Calendar of Events**  
Tigers Venture out to Meet Texarkana Lions  
The Yerger High Tigers will meet the Washington High Lions of Texarkana in their sixth conference game tonight, at 8 p.m., in Texarkana.

The Lions' team is one of the strongest in the conference, but the Tigers are out to subdue their new opponents.

The Tigers' record stands: 4 losses, 1 win; nevertheless, they are expecting to add another victory to their record by defeating the Lions.

The Missionary Society of Garrett Chapel Baptist Church will present an Open Forum Sunday, October 13, at 11:00 a.m. The topic for discussion is: "Church Etiquette" (A) In Sunday School, Mrs. Marie Williams; (B) In Worship Service, Mrs. Ethel Bizzelle; (C) For Special Occasions, Mrs. Emma Edwards; Mrs. Alva Wyatt, Mistress of Ceremony. The public is invited to attend. Mrs. Marie Williams, Program Chairman; Rev. F. R. Williams, Minister.

The Alter Guild of BeeBee Memorial C.M.E. Church will meet at the home of Mrs. Gertrude Douglas Sunday, October 13, at 4:30 p.m.

**Sixth Grade Class Presents Chapel Program**  
The 6th grade class of Shover Street Elementary School, Mrs. Neva Carmichael, Teacher, presented a very informative program, emphasizing the origin, historical dates and science events of the current month.

The program climaxed with a Fire Prevention Quiz, with prizes being given to the winners, Reaver Williams and Margo Ross.

Remarks by Mrs. E. S. Cooper, Principal. Mrs. J. M. McGhee, Reporter.

**People in the News of the Day**  
NEW YORK (AP)—Now comes Michael J. Quill with a proposition for the New York Transit Authority, which says it can't pay its bills on an income of \$400 million a year.

Eliminate all subway and bus fares, says Mike, and at the same time give the 8,000 members of his Transport Workers union a \$165 million-a-year wage boost — and a 4-day, 32-hour week.

In a letter to the Transit Authority, Quill suggested his "modest" demands could be met by a "small increase" in real estate taxes, plus some federal money and some more from the state.

There was no comment from the Transit Authority — at least not yet.

**BALTIMORE** (AP)—Dorothy Lamour went before the Baltimore City Council for a job interview.

She told the councilmen she could do a good job as a member of the Baltimore Civic Center Commission "even though I have two counts against me: I'm a woman and the majority think people in show business are flitty."

**Mantle to Undergo Operation**  
By MIKE RATHET  
Associated Press Sports Writer  
NEW YORK (AP)—The New York Yankees have decided to ruin Mickey Mantle's winter rather than ruin their summer.

With the Los Angeles Dodgers having ruined 1963, the Yankees are taking no chances with '64. Thursday they announced that the reluctant Mantle would return to New York within two weeks for an operation on his left knee.

Mantle, 32, who has undergone operations from his toes to his tonsils during his 13-year major league career, has shied away from the latest bout with the scalpel.

"It sure would ruin my winter," said Mantle.

Just before the World Series opened, Yankee team physician Dr. Sidney Gaynor said "the need for an operation" for removal of a loose cartilage "is fairly definite. I think the leg bothered Mantle enough this year, so he shouldn't take any chances."

"He might not be able to play a full year on it, the way it is now."

That's the information Dr. Gaynor turned over to Yankee Manager Ralph Houk, General Manager Roy Hamme and co-owner Dan Topping.

The loose cartilage in Mantle's left leg stemmed from the broken foot he suffered crashing into the chain-link fence while chasing a ball in Baltimore, June 5. When Mantle resumed workouts, his knee buckled. Examinations then revealed the loose cartilage.

The twin injuries limited Mantle to 65 games, the fewest of his career.

**Bizzarro Winner**  
WEIRTON, W. Va. (AP)—Johnny Bizzarro of Erie, Pa., gave Al Duarte of New Bedford, Mass., a 15-round beating Thursday night and took a unanimous decision in a boxing match billed as the fight for the North American junior lightweight championship here.

restaurant and she wants him held in contempt of court.

Luft is under a court order for bidding him from annoying Miss Garland.

Miss Garland said she was dining with a friend when Luft began a "vulgar" and threatening conversation with the gentleman at the table. Furthermore, she said, he followed her from the restaurant and grabbed her wrist so hard he scratched it.

**LOS ANGELES** (AP)—Cyd Charisse has settled a \$14,000 suit against 20th Century-Fox and Claude Productions Inc. for an undisclosed sum.

The 40-year-old actress said she was promised \$50,000 for her role in the movie "Something's Got to Give," but got only \$36,000. The company was up for pretrial hearing in Superior Court at Los Angeles when lawyers announced the settlement.

**NASHVILLE, Tenn.** (AP)—Comedian Bob Hope has notified the Episcopal Churchwomen of Tennessee that he isn't dead but he appreciated their prayers nonetheless.

Prayers were offered after a Nashville member reported hearing a broadcast last June that Hope had died. The broadcast reported the death of Skinny Ennis, a friend of Hope.

Mrs. J.M. Patten Jr. of Chattanooga, state president of the church organization wrote Hope about the mix-up. The comedian sent back an autographed picture. Across it was scrawled:

"Thanks for the memory."

**The NIGHT, The WOMAN**  
By Stephen Ransome  
Copyright © 1962, 1963 by Stephen Ransome  
Distributed by Newspaper Enterprise Assn.

XXIII  
The hedge screening him from the street, Blake moved forward slowly. He told himself that if he was being watched he couldn't help it; if a cop grabbed him he could offer an explanation that would stand up with Barcello, although Barcello surely wouldn't like it; and if no one had him spotted he had nothing to worry about except the long odds against the success of his plan.

He stopped several yards from a side window near the front corner of the cottage. The slats of the blind were not quite closed. The living room he looked into was entirely tasteless: cheap rattan furniture, a threadbare rug, wrought-iron bridge lamps with scorched shades, religious chromos on the walls. A woman was sitting on the settee, leaning forward, not resting her bent back. Her hair was an uneven gray; her cheeks were sunken, her lean hands clasped together in her lap.

She was wearing a faded house-dress; her black oxfords were old and scuffed; her gray cotton stockings were wrinkled around her thin ankles. She was just sitting and staring, sitting motionless and staring at nothing.

Going around to the front again, he turned the knob of the screen door. It opened on squeaking hinges. No longer trying to be quiet, he crossed the porch, his heels thumping, and knocked.

The woman spoke through the closed door in a ready voice: "Who is it?"

"Mrs. Gibbon?"

"Yes?"

"I'm a friend of George's. I have to see you."

As she began opening the door Blake stepped inside and flattened himself against the wall. She stood just inside. After a bewildered moment she asked, "Where are you?"

"Over here, Mrs. Gibbon. Please close the door and come out of the light. I have to be careful."

She leaned out, uncertainly turning her head in the wrong direction. He reached and took hold of her arm. Her whole frail body jerked in alarm; she let out a squeal.

"Sh-h Don't be afraid. I won't hurt you. George is a good friend of mine."

He pulled her gently away from the door and quickly closed it. She yielded with stiff-jointed apprehension. He said soothingly, "You're all right, Mrs. Gibbon, you're perfectly all right," as he turned her around. Standing behind her in the darkness, he put both hands lightly on her bony shoulders.

"What . . . what are you doing?"

"I don't want you to see me. In case the cops come around again, don't even tell them about me. I'm taking a chance, trying to help George this way."

"Who are you?"

"Better if you don't know."

"What do you want?"

## Razorbacks Fear Baylor Offense

FAYETTEVILLE, Ark. (AP)—The University of Arkansas football team flew in Waco, Tex. today, where a deadly Baylor offense—incidentally balanced—awaits them.

Defense drew the spotlight all week long as the Razorbacks prepared for Saturday's Southwest Conference clash with John Bridgers' Bears.

Spearheading the Baylor offense is Don Trull, the conference's most accurate passer.

With Trull leading the parade, the Bears have hurled the football 52 times in two games, second only to Rice's 58 attempts.

But Baylor has connected on 30 of those efforts (Rice also has hit 30 times) for a percentage of 57.7 (Rice's percentage: 51.7).

Trull topped the nation in yards gained passing last year.

Phenomenally, Baylor has averaged 195 yards a game in the air and 182 yards on the ground.

Arkansas' Frank Broyles was worried, too, about Baylor's proset offense. But the Razorback coach was cheerful Thursday when he remarked: "We've worked hard. We've come a long way since the Tuesday practice in knowing what to do."

Is the team ready?

"They know what to do," he repeated.

Broyles said wingback George Walker, injured in last week's triumph over Texas Christian, would make the trip to Waco but would not play.

The team worked out in shorts in Razorback Stadium Thursday, polishing for the Saturday battle and making minor adjustments for Baylor's offense.

The Bears have averaged 377 yards total offense per game, with Arkansas average 283 yards per game.

But the Razorbacks have the edge in defense.

Baylor's defense has yielded 264.5 yards per game, while Arkansas has yielded 212.3 yards per game—second in the conference to Texas' per-game yield of 150.3 yards.

## Shouts Down Texas Tech Team 20-8

LUBBOCK, Tex. (AP)—The Arkansas Shoats employed every type of scoring play in cruising to their second football victory, a 20-8 triumph against the Texas Tech Picadors Thursday night.

Halfback Larry Watkins, who led all rushers with 99 yards on 14 carries, punched for one yard and a touchdown to cap a 60-yard drive on the first Shoat possession.

Tech went 70 yards for a score on its first possession, with Danny Ellsworth going the final three yards. Ronnie South kicked Arkansas' extra point. Doug Young ran for two and an 8-7 Tech lead.

South fired a seven-yard scoring pass to Mike Jordan to return Arkansas to the lead and then booted a 48-yard field goal.

Picador Guy Griffiths yielded the safety when he was caught in the end zone in the fourth quarter.

### Like Baseball

HOUSTON (AP)—Solly Hemus, fired as a New York Met coach Thursday after two seasons under Casey Stengel, said he hopes to continue in baseball on the field.

## When To Fish or Hunt Solunar Tables

By John Alden Knight

The schedule of Solunar period shown in regular type, are of somewhat shorter duration, as printed below, has been taken from John Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The Major periods are shown in bold face type. These begin at the time shown and last for an hour and a half or two hours thereafter. The minor periods,

	Minor	Major	Minor	Major
	A.M.		P.M.	
Fri	12:10	4:35	12:50	7:00
Sat	1:05	7:25	1:40	7:50
Sun	2:00	8:10	2:25	8:35

## SMU Tackles Unstoppable Staubach

By BOB GREEN  
Associated Press Sports Writer

Roger Staubach and his Navy teammates fire the opening blast in a double-barrelled college football program at Dallas tonight, going against the Southern Methodist Mustangs in the Cotton Bowl.

Saturday afternoon Oklahoma and Texas, ranked 1-2 in the nation, clash on the same field, probably the first time in history that three of the top four college teams in the nation have performed on the same field in the same town on the same weekend.

Navy is unbeaten and ranked fourth in the nation largely because of lanky, talented Staubach, who leads the country's major colleges in individual total offense and passing.

But he could have his work cut out for him against the quick, determined SMU outfit that upset Air Force and Terry Isaacson, another talented service school quarterback, 10-0 last weekend.

What the Mustangs lack in weight they make up in speed on an improving defense that surprised the Falcons.

Staubach has been unstoppable so far this season.

The 6-foot-2 junior has completed 43 of 55 passes this season for 614 yards and three touchdowns. He's run for another 175 and two touchdowns, personally accounting for about two-thirds of the Navy offense that ranks first in the country with 1,275 yards.

Three other major games are on tap tonight. They are Louisiana State at Miami, each with 2-1 records; UCLA, 1-2 at Syracuse, and Virginia Tech, 2-1, at George Washington, 0-3.

The Sooners are slight favorites. Some of the other key Saturday games are Florida at No. 3 Alabama, Purdue at No. 5 Wisconsin, No. 7 Southern Cal. at Notre Dame, Illinois at No. 8 Ohio State and Army at No. 9 Penn State.

No. 6 Pittsburgh and No. 10 Mississippi are idle.

## Henderson Could Face Trouble

By BILL SIMMONS  
Associated Press Staff Writer

Nothing much is at stake this week in the Arkansas Intercollegiate Conference football hassle. State Teachers, Arkansas A&M and Henderson—the top three clubs—all are matched, but only Henderson faces even the hint of trouble.

The Bears of Conway battle Harding College's injury riddled Bisons who have yet to win a four tries.

It's an easy pick, Teachers 20-0. A&M, looking more and more like the best team in the league, meets Ouachita, which lost ace halfback Charlie Williams Thursday. Williams suffered a concussion in Ouachita's victory last week.

The absence of Williams and the impressiveness of the Aggies makes this a softie, too: A&M, 21-6.

But Southern State cannot be discounted quite that easily. The Muleriders lost 14-0 to Tech last week at Magnolia, but put up three good scoring efforts.

The Reddies, meanwhile, are doing well statistically, and have yet to lose. So make it Henderson, 14-13.

Arkansas Tech journeys to Alabama to meet Jacksonville's single wing. A year ago they tied at Russellville, and the Wonder Boys won't do as well away from home. Jacksonville, 20-7.

College of the Ozarks meets Principal College of Elsah, Ill. and will try the Mountaineers, 6-0, because of the patience of Lonnie Qualls.

but has no definite connection to announce at this time.

## Homecoming Tonight for the Bobcats

By CARTER HARDAGE  
Hope Star Sports Writer

The Bobcats run up against the Crosslet Eagles for their Homecoming tonight at Harmon Stadium. Game time is 8 o'clock but no true Bobcat fan would dare miss the eight beautiful young ladies as they take their long walk down the field at 7:30.

Coming a long way to Hope for the express purpose of upsetting the royalty by beating the Bobcats, will be a little, but quick, flock of Eagles. They have a fine backfield, capable of a dangerous breakaway threat. 165-pound HB Tony Smith is tied with McLarry of Hope for second highest scorer in the District, with 24 points.

Although they grind out most of their yardage on the ground floor, 824 so far, they don't hesitate to take care of any need for a pass by letting it toward halfback Floyd Alexander. State 440 champion and an able receiver.

Coach Ben Burton was quick to point out that Crosslet is a "worthy opponent." He says that he "looks for a good, hard fought game."

The Cats certainly aren't forgetting the 7-0 defeat at the talons of the Eagles last year that ultimately led to Hope's downfall. They are looking for something to remove the bitter taste that comes to their mouths whenever they are reminded of it. The remedy may be blood.

Fans are advised not to miss this.

## Thinks Porks Will Outscore Baylor Bears

By HAROLD V. RATLIFF  
Associated Press Sports Writer

Southern Methodist gets a riotous weekend of Southwest Conference football off and humming tonight as the Methodists try to halt the surge of Navy in a top intersectional game.

It's the prologue to a smashing Saturday during which the nation's No. 1 and No. 2 teams—Oklahoma and Texas—clash in the Cotton Bowl and the conference favorite, Arkansas, meets vengeful Baylor at Waco.

Three intersectional tests give the league a chance to go well ahead in the battle with the outsiders but it has to win only one to stay even.

Which one that's going to be appears to point toward Houston, where Rice plays twice-beaten Stanford. Southern Methodist is a definite underdog to Navy and Texas is expected to lose to Oklahoma for the first time in six years.

Arkansas, which started its drive for a conference championship with an 18-3 victory over Texas Christian, now faces what could be a deeper menace in Baylor. The Golden Bears, with good running to go with their passing, are primed to damage Arkansas' hopes for what the Razorbacks did to them the last two years.

It will be Baylor's first conference game but a most important one. It will show whether the Bears are the bounce-back type. They lost largely to the breaks last week in a battle with Oregon State.

Out at Lubbock, Texas Christian and Texas Tech will be trying to eliminate each other from the championship race. Each has lost a game and in this league it's two strikes and you're out.

It will be Texas Christian's time to bounce back. The Red Raiders did it last week when they recovered from a crushing Texas defeat and clouted the Texas Aggies 10-0.

Rather than even discuss last week's picks. A person must always look to the future: Navy-Southern Methodist—Navy has too many guns, especially the Roger Staubach cannon, and it's Navy by two touchdowns.

Texas-Oklahoma—All good things must end sometime: the Texas win streak is the latest to go.

Arkansas-Baylor—Last team with the ball will win in a wild one. Looks like Arkansas.

Texas Christian-Texas Tech—TCU will win by two, maybe

three touchdowns.

Stanford-Rice—Owls on rebound and it's Rice by 20 points.

Houston-Texas A&M—The Aggies can't win if they can't score so it'll be Houston, which can.

## Didn't Expect Much Out of the Deal

CINCINNATI (AP)—"We didn't expect much," said President George Weiss of the New York Mets—and that's about what he found in the National League plan to "Prop Up The Poor."

But General Manager Paul Richards of the Houston Colts apparently felt that Weiss had beaten him to what little there was in the grab bag.

Those were the snap reactions of the two expansions teams today to the draft plan.

The Mets took only two players from the list of 33 submitted by the other eight teams, the Colts just one. They were allowed a total of eight if they wanted, plus the right to negotiate individually for others on the list. No club was bound to lose more than one player, however.

Weiss, with first pick, chose Bill Haas, a 20-year-old bonus first baseman of the Los Angeles Dodgers. Richards selected Claude Raymond, 26-year-old relief pitcher from Milwaukee, and then Weiss named Jack Fisher, 24-year-old pitcher from the San Francisco Giants.

The price tag was \$30,000 each. National League President Warren Giles declined to disclose the entire list, but it was generally

understood to be loaded with second line veterans and untried youngsters.

Richards said he wished he had won first pick on the coin toss. That could only mean he would have liked to have drafted Haas.

Haas' minor league figures are impressive. He hit .368, tops in the minors, with 33 homers and 144 RBI in 1962 with Reno of the California League. Last season he hit .302 for Albuquerque in the Texas League and .326 for Santa Barbara in the California League.

Haas was counted against the Dodgers roster all last season, but he was not made eligible for the World Series.

Raymond bounced around the minors for several seasons before he stuck with the Braves in 1962. Used entirely in relief, he appeared in 45 games with a 4-6 record and a 5.43 earned run average last season.

Fisher, who has had arm and weight troubles, was with Baltimore from 1959 through 1962. His best record was 12-11 in 1960.

Traded to the Giants before last season, he was 6-10 in 11 starts and a 4.58 ERA. He completed two games, one against the Mets.

### Fight Results

By THE ASSOCIATED PRESS

MIAMI, Fla.—John L. Pew, 195, Boynton Beach, Fla., outpointed Chet Johnson, 189, Naples, Fla., 6.

WEIRTON, W. Va.—Johnny Bizarro, Erie, Pa., outpointed Al Duarte, New Bedford, Mass., 15.

For North American junior light weight championship.

TOKYO — Avelino Estrada, 117½, Philippines, and Kenachi Iida, 116, Japan, drew, 10.

Los Angeles — Adolph Pruitt, 137½, St. Louis, knocked out Art Hayward, 135½, Los Angeles, 2.

understood to be loaded with second line veterans and untried youngsters.

## Picking the Winners in Pro Football

By JACK HAND  
Associated Press Sports Writer

NEW YORK (AP)—Cleveland's Jimmy Brown and New York's Sam Huff will bump heads again Sunday when the unbeaten Browns invade New York for a game that should set the pattern for the title race in the Eastern Conference of the National Football League.

If Cleveland continues its headlong rush by beating the Giants in their home opener, the defending champions will be hard pressed to repeat. A Giant defeat would send the winner of the Pittsburgh at St. Louis game into undisputed possession of second place.

The Chicago Bears, the other undefeated team in the league, expect no serious trouble at Los Angeles, first stop on a two-week tour of the West Coast. Green Bay, one game behind the Bears in the Western Conference, already is pointing ahead to their Nov. 17 rematch at Chicago. The Packers play their first road game Sunday at Minnesota.

Dallas, only non-winner in the East, is home to the disappointing Detroit Lions. San Francisco invades Baltimore and Philadelphia is at Washington in other NFL games.

In the American Football League, there is one Friday night game, Oakland at Boston. After San Diego's upset by Denver there no longer is an undefeated team in the AFL, or a non-winner.

The New York Jets, leading the Eastern Division, move into San Diego, Western Division pace-setter, for the big game Sunday Buffalo plays at Kansas City and Houston at Denver in the other Sunday games.

Despite that Denver-San Diego score, we managed to stay over .500 with a two-league record of 23-17-2 for the season. So here goes: All games Sunday unless otherwise indicated.

NFL

New York 35, Cleveland 31—Jimmy Brown won't be stopped by Sam Huff or anybody else but neither will Y.A. Tittle. The old Bald Eagle will find the chinks in the Browns' pass defense. Expect a wild one.

St. Louis 24, Pittsburgh 23—Steelers may have been used up by Browns last week and will be hurting without John Henry Johnson. Lou Michaels' field goals will make it close but that Card offense with John David Crow back in action should swing the balance.

Chicago 28, Los Angeles 3—Unless the Bears take a Hollywood vacation, and George Halas won't allow that, they should romp. Rams will beat somebody but not until they hit the 49ers.

Green Bay 34, Minnesota 14—The Packers are rolling and look what the Cardinals did to the Vikings last week.

Baltimore 21, San Francisco 7—Colts have too much for disorganized 49ers with Johnny Unitas on the beam and San Francisco weak on pass defense.

Philadelphia 28, Washington 21—Johnny Sample still out and Redskins still hurting on pass coverage. Both lost to New York and both beat Dallas. It may be up to King Hill again if Sonny

Denver 21, Houston 14—Johnny McCormick engineered the big upset of San Diego. He wasn't even with the club when they lost to the Oilers earlier 20-14. Billy Cannon's condition doubtful.

San Diego 28, New York 10—Weeb Ewbank's Jets won three in a row at home but they haven't bumped into anything like the Chargers. Jets will be hustling but San Diego has too many horses.

Kansas City 28, Buffalo 21—Len Dawson-to-Chris Burford combo should find weakness in Bills' pass defense although Cookie Gilchrist is reported in best shape of year. Jack Kemp's finger was jammed again last week.

Denver 21, Houston 14—Johnny McCormick engineered the big upset of San Diego. He wasn't even with the club when they lost to the Oilers earlier 20-14. Billy Cannon's condition doubtful.

### Winner Leads

BURNEYVILLE, Okla. (AP)—Defending champion Bo Winger of Oklahoma City posted a five-under-par 68 Thursday to take the 38th South Central PGA Golf Championship at Turner Lodge.

Wins Decision

MIAMI, Fla. (AP)—John L. Pew, 195, of Boynton Beach, Fla., won an eight round heavyweight decision Thursday night over Chet Johnson, 189, of Naples, Fla., in the main event at Little River Auditorium.

Jurgensen's hand is sore.

Dallas 21, Detroit 17—Strictly a hunch although the Lions are favored. The Cowboys collapse under pressure but the Lions' offense hasn't scared anybody. Darris McCord is out for Detroit and Don Perkins is back in shape for Dallas.

AFL

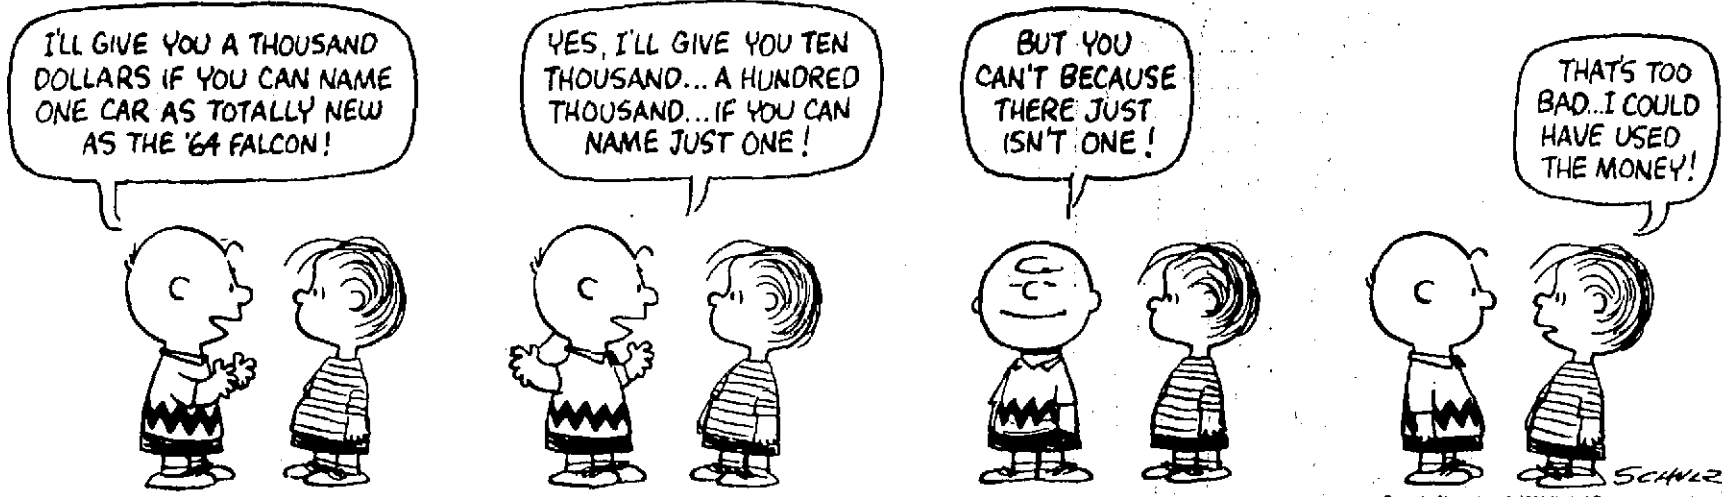

Boston 20, Oakland 14, Friday night—They say Babe Parilli is ready to go. If he is and Gino Cappelletti is in form, the Pats should beat the Raiders like they did in Oakland earlier.

San Diego 28, New York 10—Weeb Ewbank's Jets won three in a row at home but they haven't bumped into anything like the Chargers. Jets will be hustling but San Diego has too many horses.

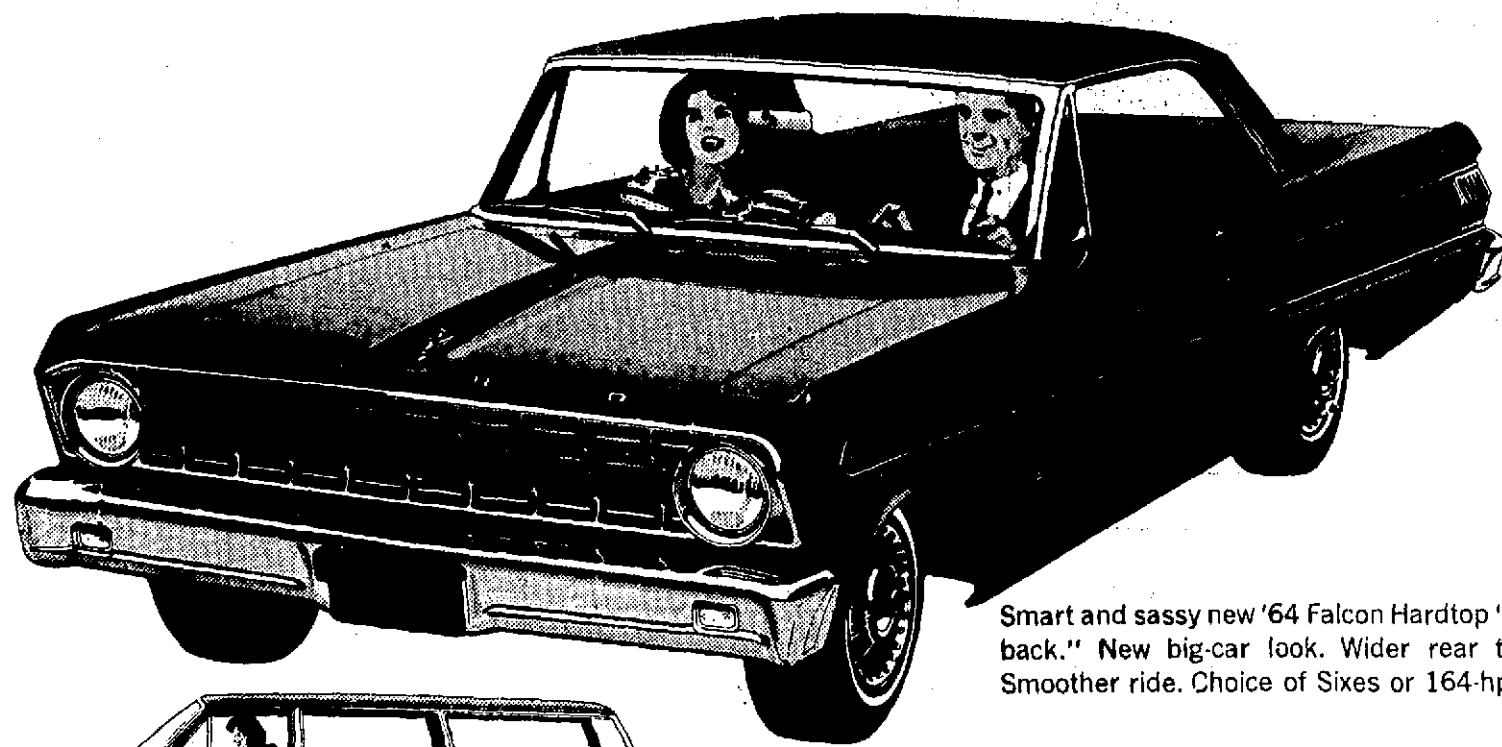

Kansas City 28, Buffalo 21—Len Dawson-to-Chris Burford combo should find weakness in Bills' pass defense although Cookie Gilchrist is reported in best shape of year. Jack Kemp's finger was jammed again last week.

Philadelphia 28, Washington 21—Johnny Sample still out and Redskins still hurting on pass coverage. Both lost to New York and both beat Dallas. It may be up to King Hill again if Sonny

Denver 21, Houston 14—Johnny McCormick engineered the big upset of San Diego. He wasn't even with the club when they lost to the Oilers earlier 20-14. Billy Cannon's condition doubtful.

# "Live Better With Flameless Cooking"

## Electricity Is One of Today's Best Buys

The electricity that powers a modern total electric home and the flameless appliances in the home are two of today's greatest values, according to the Live Better Electrically Program of Edison Electric Institute. While the cost of living has more than doubled since 1935, the average price of household electricity, unlike other fuels, has steadily decreased, thanks to technical advances and to increased use by the consumer.

Statistics show that the average residential price of electricity per kilowatt-hour in the United States today is actually less than half the 1935 price. And today's low-priced electricity will operate more than 166 electrical servants—one for almost every comfort and service requirement in the home.

Today's flameless electric appliances are better by far than they used to be — yet it takes fewer hours of work to buy them. In 1932 it took an average of 442 hours of work to buy a refrigerator; today's modern electric refrigerator with a freezer, three times the storage space and no defrosting requires only 217 hours of work.

The 1932 electric washer was purchased with 313 hours of work; the flameless electric washer of today, which automatically washes, spins and dries and handles twice the load, can be purchased with only 123 hours of work.

## JFK Denies CIA Blamed in Viet Nam

By FRANK CORMIER

WASHINGTON (AP)—President Kennedy says speculation that the Central Intelligence Agency has backed administration policy in South Viet Nam is "wholly untrue" and does the CIA an injustice.

At his first news conference in nearly five weeks, Kennedy also confirmed Wednesday that John Richardson has been transferred from his old post as chief of the CIA mission in South Viet Nam. He called Richardson "a very dedicated public servant" and he gave no reason for the transfer, nor said where Richardson would serve.

The early-evening session with 238 reporters also produced:

A presidential announcement that the government will permit private businessmen to sell some \$250-million of surplus wheat to the Soviet Union and her European satellites. Acknowledging that "there will be some who will disagree with this decision," Kennedy said it is "very much in the interest of the United States."

A Kennedy statement that he thinks Sen. Barry Goldwater of Arizona can capture the 1964 Republican presidential nomination if he passes a preconvention test of "his endurance and his perseverance and his ability."

A restatement of official opposition to military coups in Latin America, coupled with rejection of the idea of using American military might to thwart them. Short of the use of force, Kennedy said, the United States was powerless to prevent recent coups in Honduras and the Dominican Republic.

A disclosure by Kennedy that the Soviet Union has made no response to his Sept. 20 proposal that this country and the Soviets mount a joint expedition to put a man on the moon by 1970. Kennedy said the subject might come up at a late-afternoon conference with Soviet Foreign Minister Andrei A. Gromyko.

An assertion that it would be "a great mistake" to reduce the 40-hour work week.

A statement that the administration is watchfully concerned about recent price increases in steel, aluminum, heavy chemicals and electrical equipment.

Kennedy was asked to discuss reports that the CIA played an independent role in South Viet Nam and clashed with Pentagon and State Department policies. He said this was "wholly untrue" and unfair.

The President said he studied the record of the past nine months and found nothing to indicate that CIA "has done anything but support policy."

At another point, however, Kennedy conceded officials have differed about policy in South Viet Nam. But now, he said, "I know of no disagreement on what our basic policies will be and what steps we will take to implement it."

## Flameless Electric Cooking Win Converts

With the precise temperature and timing controls on today's automatic electric ranges, mother can spend more time with her family while dinner cooks. And since flameless electric cooking is clean, kitchen cleaning chores are greatly reduced.

According to a study by the Live Better Electrically Program of the Edison Electric Institute, once people use a flameless electric range they seldom revert to other types of cooking fuel.

In a study of 15 selected markets, LBE found that 82% of electric range owners would prefer another electric range on their next purchase. Thirty percent of those cooking by other methods also indicated a desire to switch to flameless electric cooking. Among both groups cleanliness is by far the most frequent reason advanced for their preference.

Why does electric cooking win such ardent converts? There are a number of reasons why electric cooking is favored "forever after" by those who use it. In addition to the fact that it is the cleanest method of cooking, it also offers accurately measured heat and completely automatic control. Once the homemaker sets the controls and dial settings on her automatic electric range her "watching" chore is ended.

The continuous rise of electric range sales is indicative of consumer preference for flameless electric cooking. The purchase of an electric range is often determined, LBE points out, not only by its efficient performance but also by its ease of installation. Electric range installations are flexible. They fit the homemaker's kitchen plan, rather than demanding further adjustments or arrangements.

## Plaquemine Negroes Pull a Boycott

PLAQUEMINE, La. (AP)—Negro pupils boycotting their segregated high school planned a church rally today despite a police warning that officers will disrupt their meeting.

"The church will not be used as a fort any more," Police Chief Dennis Wong said. "If it's not being used for church services, I'll break it up."

Police scattered Negro youths from the Freedom Rock Baptist Church Wednesday. Earlier, they used tear gas and electric cattle prods to smash a march to the town's white high school.

Officers arrested one Negro youth during the hectic day and charged him with carrying a zip gun.

Ronnie Moore, field secretary for the Congress of Racial Equality, sent a telegram to Atty. Gen. Robert Kennedy calling for federal intervention. Moore deplored what he called "police brutality."

CORE leaders say they are not playing any part in the two-day boycott that has cut attendance at Negro Iberville Parish (county) High School from 622 to 160.

Dorastean Harris, a student leader, urged about 100 Negro parents to let their children attend a "freedom" meeting at the church today.

Among other things, the boycotters are protesting suspension of 35 pupils who took part in a sit-in last Friday.

The Governor's mansion was completed in January, 1950, at a cost of \$197,000.00.

## Modern Trend in New Home Design Stresses Electricity

The most modern design in new housing today is not always visible from the outside. Techniques and trends in new housing are frequently judged by exterior effects, but actually your new home may be difficult, not because it has a tower or is square or round, but because of its marvelous total electric system.

According to the Live Better Electrically Program of the Edison Electric Institute, unless you have a fine eye for details, you may not be aware that the traditional or Swedish modern house you are looking at has a lot more to recommend it than its nice yellow shingles or the skylight in the kitchen.

Since you cannot always tell the players without a scorecard here are some of the "look fors" recommended by Live Better Electrically, if you desire the ultimate in total electric living.

**The Gold Medal Award**  
When a builder meets the quality standards set by electric utilities for total electric homes

the house he builds is awarded a Gold Medalion.

This symbol is always found near the front entrance of the new home. It is a small circle inscribed with the Gold Medalion legend on it. Sometimes the seal is affixed by itself, or illuminates the door bell—or illuminates the house number of the new house. It signifies a total electric home that will be as modern tomorrow as it is today.

**Convenience, Outlets and Comfort Controls**

Some tell-tale signs of a quality total electric home are out-that provide for your electrical lots and lighting installations convenience requirements in every room of a new house. Comfort heating controls may be installed in every room or there may be a master control for year-round climate control.

In the kitchen area there are provision for all major appliances as well as small ones, there is also provision for an electrically serviced laundry area.

## Flaming Fall in Ozarks Is Ruined

By JOHN R. STARR

LITTLE ROCK (AP)—Drs. weather has all but ruined the prospects for "flaming fall" in the Arkansas Ozarks this year.

Tours of the brilliantly-colored Ozarks traditionally have been a highlight of the Arkansas tourist season, but this year visitors will see little more than brown hillsides.

Jim Martin, publicist for the Arkansas Forestry Commission, said most of the hardwoods, which provide the most spectacular colors, already have turned brown because of the drought.

"There are a few gum trees which have turned yellow and red and are worth looking at," Martin said. "But the overall prospect is dim."

Martin said he doubted that a general rain now would help the situation much.

"A few trees which are still green might develop into something, but I couldn't be sure," he said.

Many hardwood trees have died during this 11-month drought, Martin said, and growth of other trees—such as pine—has been stunted.

"The pines are not in as much trouble because they grow throughout the year," he said. "But four or five years from now when we cut these trees I'm sure it will be easy to pick out 1963 on the growth rings."

Pine is the principal product of Arkansas tree farms.

Martin said the forest fire danger remained critical and will remain so until the state gets a general rain.

Personnel at the Forestry Commission have kept their fingers crossed for weeks as the drought continued. They credit an absence of wind with holding the fire loss down.

There have been many fires, but most have been confined to small acreage.

Total Electric Gold Medalion homes may also have air conditioning throughout or in special areas.

**The Service Entrance Is the Major Clue**

The real test of a total electric home, however, can most easily be detected at the electrical service entrance. This must provide for present electrical needs as well as future additions. Total electric homes always have a plentiful amount of electric power "on hand." The service entrance, in a sense, is the service ladder that indicates how well your total electric home is supplied.

## Hearing Set for Proposed Dam

LITTLE ROCK (AP)—U.S. Engineers said Wednesday another hearing will be held in December or January on the proposed Water Valley Dam across Eleven Point River near Pocahontas. Col. Charles D. Maynard, district engineer, conferred Wednesday with a delegation from the river valley. The group said it would marshal its forces to show that the dam was not wanted. The dam was originally proposed in the early 1920s and area residents have opposed it consistently. A hearing on it was held in February, 1962, and proponents of the project said they thought that

would be the last one. But in September, Maynard announced the new hearing and said a report on the first hearing would be delayed because of planning problems. Maynard said it would be necessary to review some planning studies because of interest and controversy over the project.

## G-E HI-SPEED RANGE NOW BUDGET PRICED

• Huge 23-inch Automatic Master Oven and Broiler • Automatic Oven Timer turns oven on and off automatically; Includes Kitchen Clock and Minute Timer • 4 Hi-Speed Calrod® Units with Pushbutton Controls • 3 roomy storage drawers • All Porcelain inside and out • Full width fluorescent light.

## Heartbreak of Thresher Still Shows

EDITOR'S NOTE—The nuclear submarine Thresher sank six months ago with the loss of 129 men. How are their families facing the future, the heartbreak and loneliness?

By JAMES CALOGERO

PORTSMOUTH, N.H. (AP)—They put on a valiant front—the families of the Thresher men—but the heartbreak they suffered still shows through.

The Navy's underwater pride and joy, the nuclear submarine Thresher, sank with the loss of 129 men during a test dive 220 miles off Boston six months ago today.

Since that day, April 10, the submarine has been waterlocked only a mile and a half out of reach—the depth of the water at her Atlantic grave.

Ashore, a girl, 3, scribbles a childish note and asks her widowed mother to mail it to daddy. The mother answers kindly and fights the tears.

A boy, 6, reminds his mother that daddy has been away to sea an awfully long time and asks when is he coming home. The mother tells a visitor she awaits the day the boy will understand.

In another home in the Portsmouth area, a 3-month-old boy his

father is never to see gurgles, unknowing of tragedy. He was born three months after his father went down.

Loss of Thresher left 150 fatherless children. Aboard the submarine were 16 officers, 96 enlisted men and 17 civilian technicians.

There is no bitterness among the widows and children.

At a trim ranch home in Portsmouth, Mrs. Walter Jack Noonis says her two sons and two daughters, ranging in age from 2 to 10, keep her busy "but there's this terrible loneliness about the time of the day your husband is supposed to be coming home."

In Rye, N.H., Mrs. Michael J. Di Nola—her husband was a lieutenant commander—took a breather from the strenuous effort her five small children require and recalls the past six months.

"With five small children, I knew I had to face up to the facts and make my adjustment quickly. I found the answer in keeping busy."

She's still active in Navy affairs.

"It's the way Mike would have wanted it," she says. "The Navy was his whole life since his days at Annapolis. I met him on a blind date while he was a midshipman and I was doing graduate nursing work in New York, his home city."

The families of the 112 Navy men received a death gratuity of six months pay. In addition they receive \$12 a month plus 12 percent of base pay. Many of the men also carried national service

## Communists Reel in Singapore

By THE ASSOCIATED PRESS

SINGAPORE (AP) — Communists and other left-wing extremists reeled today under the second sledgehammer blow in less than four weeks to their hopes of dominating Singapore, Malaysia's trade and military center.

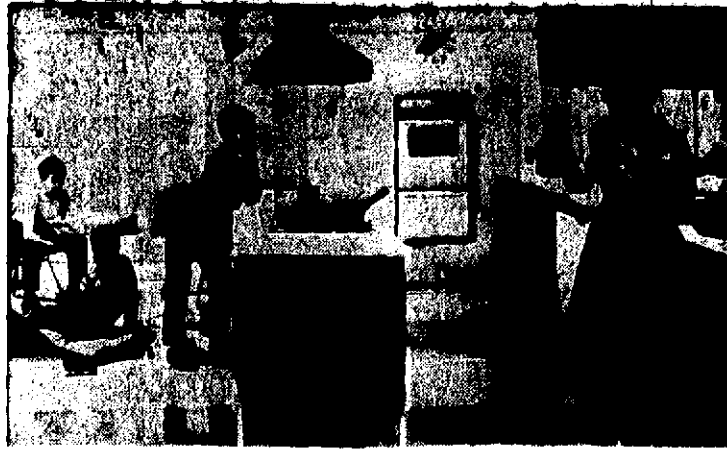

A leftist general strike, which the Reds hoped to cripple Singapore's economy, collapsed Wednesday night. Hundreds of workers had already gone back to their jobs when the government declared the strike politically motivated and illegal. Police arrested 137 persons.

The first blow to the extreme left was the landslide victory of Premier Lee Kuan Yew's coalition government in the parliamentary election Sept. 21. Lee's coalition won 37 of the 51 seats, while the Communist-controlled Barisan Socialists captured only 13.

and commercial life insurance policies.

The children of the Navy men are eligible for college scholarships which can be drawn from the Dolphin Fund—a private fund in Norfolk, Va., administered by the Navy.

The 44 children left by the civilians lost on Thresher will be eligible for scholarships from a special memorial fund established through public subscription.

Today's total electric Gold Medallion Homes bring you and your family into the "space age." Because flameless electric appliances and electric heating systems are compact in design and can be installed without special venting, there's even more space left over for family fun and the joys that come with total electric living.

## Total Electric Home Makes Orbit in Space Design

Today's total electric homes are orbiting in space! Modern electric equipment design is giving back inches, feet and yards chimneys, radiators and vents. They are the real magic of modern living and like Cinderella's pumpkin they perform miracles at the turn of a dial — if not a wand.

In the kitchen flameless electric appliances are tops in space-making. Electric laundry equipment is so flexible it fits where you want it — doesn't "demand" where it must be placed.

Waste disposals make garbage and clutter disappear and our sidewalks and driveways are "cleared" of ice, sleet and snow — all electrically.

"Space communication" are carried on between members of

the family by electrical intercoms. Hot water springs eternally from a flameless electric water heater hidden beneath a counter or stair in what would normally be unused space.

Electrically, plus science has whisked the homemaker out of the cinders and into orbit, according to the Live Better Electrically Program of the Edison Electric Institute. Electricity like Cinderella's pumpkin, is the source from which many miracles can spring. The applications of electric living, however, although they are miracles of the total electric age, are the products of sound scientific reasoning. The difference between myth and reality, Live Better Electrically points out, is in every day living.

## Electric Ranges Give Care Free Cooking, Best Results

Every homemaker with a new electric range has an automatic "chief" to probe, time, and control the cooking temperature of food. If she follows a few basic rules and then trusts the cooking to her electric range, even the beginner can be a great cook.

Here's the advice home economists give all women, no matter how experienced they are: write down the menu in advance so you'll be sure to buy all the ingredients; plan your timing carefully so all dishes will be ready at the same time; and prepare foods carefully according to directions on the packages or in the cookbook.

Finally, put the food in the care of an automatic electric range for carefree cooking with gourmet results.

With the new electric ranges you no longer have to stand by to watch and probe every few minutes. Electric ovens, with their fully automatic stop and start timers and accurate heat controls, cook your food exactly the way you want it.

Some ranges have thermostatically controlled surface units that quickly bring the temperature in the pot or pan up to the temperature you have set then automatically hold it there, whether it's a slow simmer, high heat, or a setting somewhere in between. The constant, controlled heat does away with spills, overcooked food and scorched pots. Double boilers are no longer necessary for sauces and custards, and the temperature is so exact you can even bake a cake on the surface element.

Automatic meat probes are another feature of many of the 1963 electric ranges that make good cooking easy. With them, you can cook roasts or poultry to just the degree of doneness you want without guesswork or testing. Some models automatically keep meat at serving temperature without further cooking once it's done.

Many electric range models have removable rotisseries that automatically turn roasts or poultry to cook to juicy perfection.

As for appearance, the new electric ranges suit decorator tastes in both color and design. Pastel finishes, polished cooper, brushed chrome and white finishes are available in a variety of styles—free-standing models built-in ovens and surface cooking units, compact slide-in ranges, and high-oven models.

## UAR and Iraq Proclaim Deal

DAMASCUS, Syria (AP)—Syria, Egypt's former partner in the United Arab Republic, had proclaimed a military union with neighboring Iraq.

Gen. Amin Hafez, strongman president of Syria's National Revolutionary Council, said Tuesday both countries' troops will be under a supreme defense council.

The Arab Socialist Ba'ath party rules both Syria and Iraq. The two governments have been working toward union since their agreement to join Egypt in an enlarged United Arab Republic broke down.

## Bali's Volcano Is Acting Up

JAKARTA, Indonesia (AP) — Bali's destructive Gunung Agung volcano has shown signs of erupting again, the Antara news agency reported today.

A delayed dispatch from Denpasar, capital of Bali, said a rain of hot ash poured down the mountain for three consecutive days two weeks ago.

There was no report of injuries or deaths.

Most residents along the slopes of the mountain departed after last March's eruption killed 1,500 persons.

## Thailand Is in the Eye of Hurricane

By WILLNIXI—Fryan  
AP Special Correspondent

BANGKOK, Thailand (AP) — This country is in the eye of the hurricane.

Winds of change are howling on all sides of Thailand. In the eye of the storm there is calm laden with menace.

The Thais—with American help—are trying to seed the storm, to make it spend its strength before it can move in and engulf the nation.

The threat to Thailand from the Red Chinese giant is not one of direct conquest by military invasion. That would raise the prospect of massive retaliation against the aggressor from Thailand's Western allies.

The Red Chinese aim, Bangkok seems to feel, is to strangle this nation of 30 million, geographically. This would be accomplished by envelopment of the surrounding countries through subversion, infiltration, civil war and eventual Communist domination.

In Thailand, the aim would be to produce a situation in which the Thais would find themselves fighting Thais—civil strife abetted by infiltrators from Communist North Viet Nam or the Communist Pathet Lao forces in Laos. This would do the Red Chinese's work for them and expose the country to domination by forces controlled from Peking.

The Thai government, supported by Americans, is attempting to strike back in what is called here the battle for the Northeast. There the Communists for 10 years have been trying to infiltrate villages, to dominate them by promises or terror or both.

Communist infiltrators, active for years, tell the villagers they are not really Thai but are Lao; that their government in Bangkok is corrupt and deceitful and will turn the country over to the foreigner.

The infiltrators never speak of communism. They go out of their way to praise the Lord Buddha in deference to religious faith. They attempt to capture the village phuyaihan (headman) and use him to dominate the others. When persuasion fails they use terror.

The Communists want northeastern Thailand badly and seem to have a long-range timetable for enveloping it. The area is important to neighboring Laos, which imports rice from the Thai hinterland. A Communist Laos without northeastern Thailand

might be more liability than asset.

For the past year, an important instrument of counterattack has been a system of mobile development units.

The idea belongs to the government of Prime Minister Sarit Thanarat. The United States contributes to it, advises and observes when asked, but stays in the background. It is a Thai show.

The scheme involves surveys followed by dispatch of teams made up of doctors, technicians, experts in various fields and teachers. They bring along dispensaries, tools, seeds, building materials and other things, according to the local needs.

Villagers provide labor to produce school buildings, roads and other improvements to help the village develop itself. The hope is that this will build its own momentum and spread from village to village.

The Americans have become

## Korean Reds and British Deal

TOKYO (AP) — Communist North Korea said today it has signed an unofficial trade agreement with a British delegation. But it gave no figures.

Pyeong Yang Radio said the agreement was concluded with representatives of the British Council for the Promotion of International Trade.

The broadcast said North Korea will deliver various metals and highly popular.

All this effort seems to be paying off. The pressure is reported to be lessening perceptibly in the villages affected by the program. Incidence of Communist infiltration is decreasing. The villagers themselves seem enthusiastically receptive to the program.

But the Communists are not likely to give up easily. They will return to the attack.

## Japan to Keep Up Defenses

TOKYO (AP) — The U.S.-Japanese Security Consultative Committee held its fourth meeting today and agreed that the limited nuclear test-ban treaty is no cause for slowing down defense efforts.

Japanese Foreign Minister Masayoshi Ohira told a news conference after the three-hour meeting that the United States and Japan hold "absolutely identical views" on this matter.

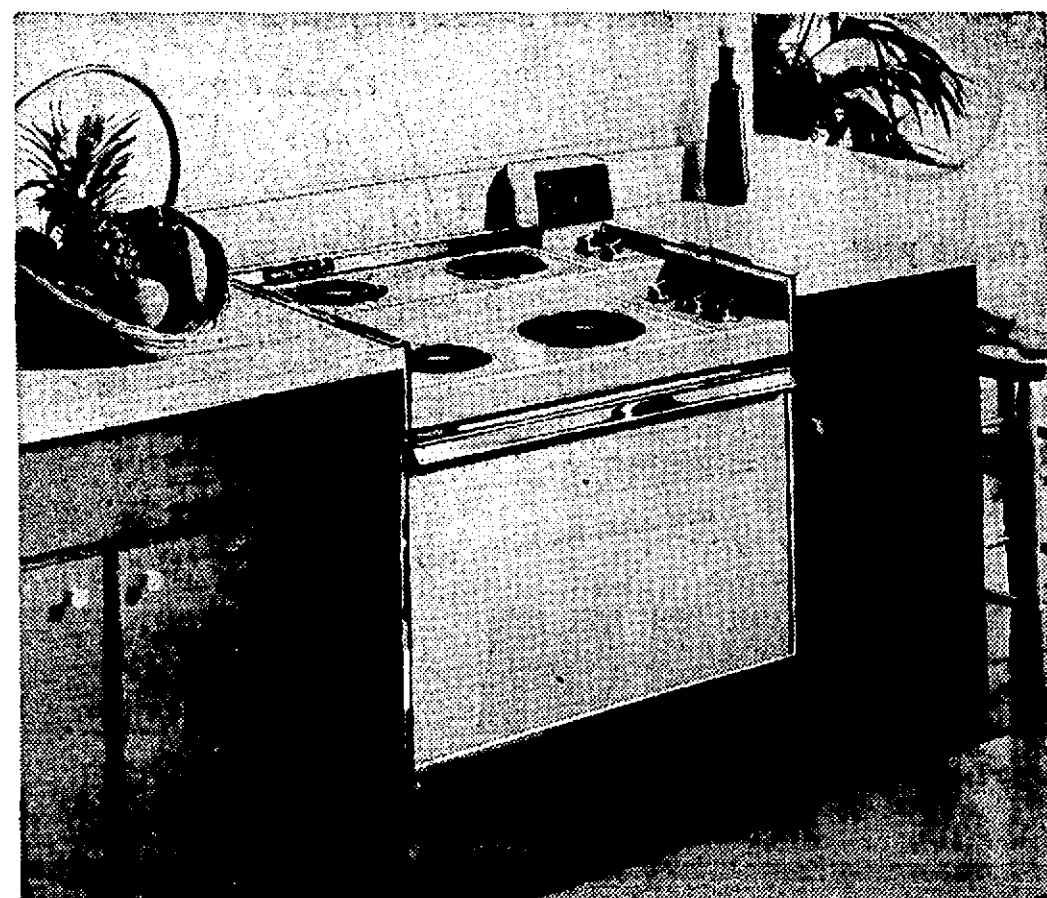

The United States was represented by Adm. Harry D. Felt, commander in chief of the Pacific command, and ambassador to Japan Edwin O. Reischauer.

minerals, chemicals, agricultural products and other commodities, while Britain will export special machine tools, complete plant equipment, ships, synthetic fibres and other products.

new convenience...fresh appearance

## Westinghouse Terrace-Top 30 electric range

unique design puts work surfaces at most convenient height...

The smart styling of this new range provides a two-level work surface that makes cooking so much easier. Front units are 3 inches below standard counter height, where foods may be stirred, beaten or whipped in the most comfortable position. Rear units, slightly higher, are easy to reach, yet out of the way for foods that require less attention. Removable door and plug-out oven heaters make clean-up easy, too.

Available in two models, standard and automatic, in four decorator colors.

See it demonstrated today.

# Worried Over Showing of Men Drafted

By J. W. DAVIS  
WASHINGTON (AP)—President Kennedy and a lot of other Americans are worried about the bad showing made by so many young men tested for military service. Last year a few over 2,000,000 reported for initial draft examinations. Virtually half of them were found unqualified for service. Nearly a fourth flunked fairly simple mental tests. This is enough to alarm anybody, and Kennedy has set up a high-level task force to prepare a program for the guidance, testing, counseling, training and rehabilitation of those who don't measure up. The task force is to make a preliminary report the first of next month and a final report by the first of the year. Bad as the situation is, these undertakings the study can find rays of hope. One is in the experience of the Army with illiterates in World War II, referred to by Kennedy in announcing the new effort. The Army set up special training units for men who couldn't read or write, and trained 300,000 of them. Of these, 85 per cent passed the courses and went on to serve as soldiers. A sampling of these once-illiterates showed that a fourth of them rose to the rank of corporal or better, and a considerable number won decorations. Another encouraging study is reported by the President's Council on Physical Fitness. It found that the first time some 200,000 school children were given a minimum physical fitness test, about one-third of them failed. After 12 weeks of rather simple exercises, over 80 per cent could pass. Reports from colleges and universities of Iowa and Florida and East Washington State College. American children have ranked behind European youth in fitness. But there now come reports that the children in West Germany are getting soft and flabby as their country waxes fat and prosperous. The West German children, say these reports, are going in for rich food and driving around in Volkswagens.

# Macmillan Undergoes Operation

By RICHARD KASISCHKE  
LONDON (AP)—Prime Minister Harold Macmillan today underwent a successful operation for the removal of his prostate gland. A hospital bulletin said there were no complications after the hour-long operation and that his condition was excellent. Macmillan, 69, entered King Edward VII Military Hospital Tuesday night after experiencing severe pain during a Cabinet meeting. Word of the successful surgery was flashed to Blackpool, where Macmillan's Conservative party is holding its annual conference and discussing the lineup of leadership to lead it into next year's general election. Well-wishers gathered around the hospital, which had a police guard since the prime minister's admittance. Messages from well-wishers had poured in from morning and more came after radio and press bulletins shortly after noon reported the successful operation. Macmillan entered the hospital suffering from a blockage of the neck of the bladder caused by enlargement of the prostate gland, a common condition in elderly men. The operation was performed by Dr. W.W. Badenoch, a surgeon specializing in kidney and bladder diseases. A medical bulletin said the prostate gland was removed and Macmillan's condition "throughout and at the end of the opera-

# Electric Heat Controls Temperature

Flameless electric heat lets you dial comfort as you like it. With individual room thermostat you can heat each room to the exact degree of comfort that you like best. And you don't have to pay extra to heat the whole house when you need only certain rooms warmer.

Because a thermostat, no matter how good it is, can only measure temperature in the room in which it is located, a single thermostat may not properly control the heating of today's modern, well-designed home. One section of the home may face the sun while another is sheltered. There may be wide differences in glass area, wall exposure and occupancy. Heating requirements may vary from room to room. A central thermostatic control operates the entire system in accordance with condition at the thermostat. If that spot requires heat, all rooms may get heat whether they need it or not. Some rooms may become overheated and fuel is wasted; others remain cold until the room with the thermostat needs heat. According to the Live Better Electrically Program of Edison Electric Institute, flameless electric heating offers a solution to these problems. With electric heat each room can have its own heating system and individual thermostat. Heat is produced in the exact spot and exact quantity that you want. If solar heat, body heat or heat from lighting is sufficient to keep the room at a desired temperature, the heat stays off and operating the desired temperature, the costs stay down. And since electric heating is 100 per cent efficient, all of the energy used produces heat — none of it is lost up the chimney. With electric heat's individual climate control you can pick and choose the temperature you can pick and choose the temperature you want in each room of the house. Bathrooms and nurseries can be kept at 80 degrees, bedrooms at 65 degrees and the other areas of the house at 70 or 72 degrees. The end result is privacy, personal comfort and economy of operation for the homeowner. tion was excellent." Before the operation, Sir John Richardson, the prime minister's personal physician, said Macmillan would not be fully active again for at least two or three months. He added that Macmillan had been suffering from the obstruction for several months. The operation came after Macmillan had launched his fight for survival as leader of the Conservative party, confronted by a revival of Laborite strength. Some leaders insisted that the party could not be led in the testing days ahead by an ailing Macmillan. Lady Dorothy Macmillan spent an hour with her husband at the hospital Tuesday night. As she left she said: "He is in excellent form." At Blackpool, where the Conservative party is in annual conference, conviction grew among delegates that Macmillan will resign as soon as a political heir emerges. The 4,000 conference delegates,

still stunned by Macmillan's sudden illness, found little enthusiasm for public policy debates designed to work out a program for next year's national election. What had been planned as a "Macmillan must stay" demonstration turned instead into a maze of backroom bargaining in the hunt for a successor.

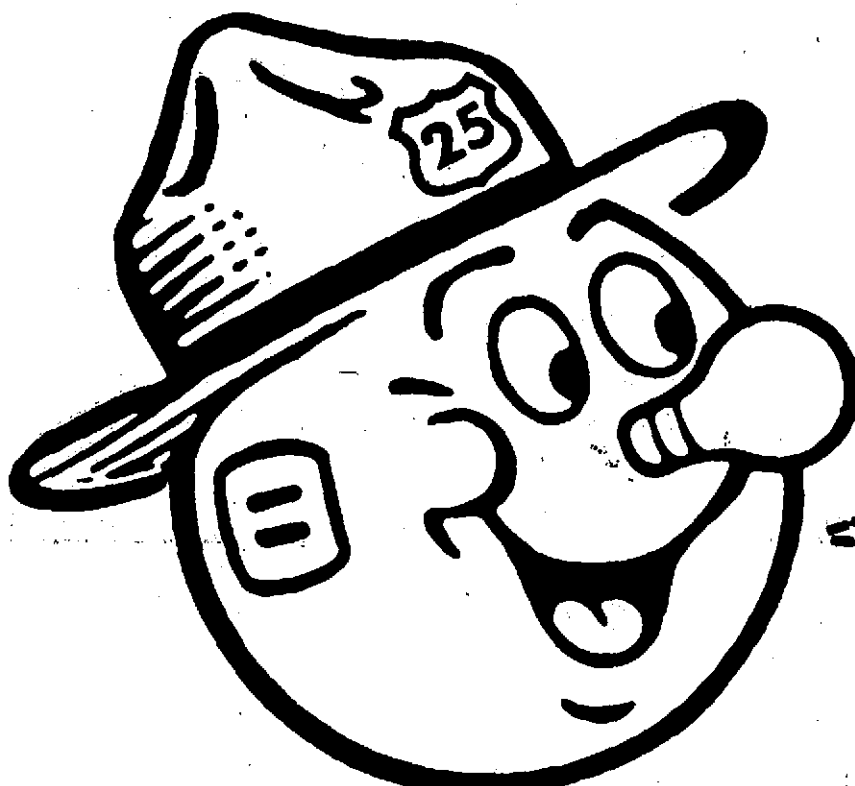

# South Has Taken Over Capital Hill

By J. W. DAVIS  
WASHINGTON (AP)—Sen. Paul Douglas, D-Ill., complaining the other day about the power enjoyed by Southern members of Congress, declared: "The sober truth is that while Grant might have taken Richmond, the South has taken Capitol Hill." Douglas, who wants new laws on civil rights, was somewhat in the position of a football coach talking about how tough the opposition is. Still, as can be demonstrated mathematically, the South does have a strong position at the Capitol. This is a factor contributing to new talk of diluting the role of seniority in reaching the top in Congress. As things now stand, seniority is the basic factor in getting good committee assignments and chairmanships. Southerners hold more than their geographical share because so many of them have been in Congress for so long, sometimes sympathetic and sometimes opposed to national administration purposes. The new talk is circulating among a group of self-styled "loyal" House Democrats who say they would not abandon seniority, But they would strike at the seniority of those members who were found to be actively disloyal to the party in presidential elections. They would have the party caucus, which makes committee assignments in the House, pass over those representatives who support the opposition in 1964. Those named could be removed from committees on which they have long seniority or could be denied further promotion on the committees. This would lessen their chances of becoming chairmen. An appraisal of what chances this movement has will have to await the 1964 presidential campaign to see who among the Democratic members might bolt the national ticket. Some Southerners have bolted in the past, and some are restive about 1964. But the chances of Congress tinkering very much with the claims of seniority are not all strong. This is true even though arguments can be made that the system gives power to men who are not necessarily qualified. The question that up to now has countered attempts to junk the system is this: What better way is there to choose the chairmen? Chairmen could be appointed by the speaker of the House and the Senate majority leader. But 50 years ago Speaker Joseph Cannon had that power and abused it so that the House took it away from him. Couldn't the committeemen themselves elect the chairmen?

# Segregation Found in Many Cities

LITTLE ROCK (AP)—A report from the Arkansas Council on Human Relations says at least 14 Arkansas cities have racial segregation in some phase of public life. The report says the cities with some desegregation include Hoxie, Charleston, Mansfield, Little Rock, Hot Springs, Fort Smith, Pine Bluff, Benton, Conway, Fayetteville, Alma, Van Buren, Gosnell and Jacksonville. The interracial council is a private agency. Nat Griswold, director of the council, said it is "trying to bridge the gap that exists in many areas between white and colored." He said the fact that 14 cities have some desegregation is cause for "a little optimism." The comprehensive report on Arkansas desegregation went to the council's 500 Arkansas members. It lists Hoxie, Charleston and Mansfield as having completely desegregated schools. It lists Little Rock, Fort Smith, Pine Bluff and Hot Springs as having token desegregated schools. Fayetteville, the report said, is the only Arkansas city with completely integrated municipal facilities. The council lists Pine Bluff and Little Rock as having desegregated public facilities, except for swimming pools. Theaters are considered integrated in Fayetteville, Little Rock and Pine Bluff and drive-in theaters in Fayetteville, Little Rock, Pine Bluff, Benton and Conway, the council said. Hotels were reported integrated in Little Rock and Fayetteville and some motels in Fayetteville and Fort Smith. The council said Alma, Fayetteville and Van Buren have completely desegregated secondary schools. It also noted that schools were desegregated in Goshell and Jacksonville for children of military personnel at Blytheville and Little Rock Air Force bases, respectively. Little Rock was the only city in which department store rest rooms and water fountains were available to Negroes. The council has no national affiliation, but works under the leadership of the Southern Regional Council, which has headquarters in Atlanta, Ga. The Southern group was organized after World War I to improve race relations.

# HOPE WATER AND LIGHT PLANT SAYS...

IT'S WORTH \$25 IF YOU BUY AN ELECTRIC RANGE NOW!

OCTOBER 14 THRU NOVEMBER 2

Nothing has contributed more to better living than electric service and nothing else you use in your home can be bought for less than it cost 25 years ago. Your electric service has never gone up.

In the face of rising costs of food, clothing and every other commodity or service you use in your home, electric rates have continued to go down.

In Hope you can enjoy the use of electrical household aids for less money than in most all other cities in Arkansas. The Hope Water and Light Plant offers you good dependable electric service at rates much below the average in Arkansas.

The Money you spend for electric service with your municipal electric system goes to provide many things for the city that would otherwise have to be paid for by some form of taxes. As you "LIVE BETTER ELECTRICALLY", you are developing your own electrical business, which, in turn, provides for many community services.

FILL IN YOUR DEALER'S CERTIFICATE—

—GET YOUR \$25 CHECK!

THE HOPE WATER AND LIGHT PLANT IS COOPERATING WITH ALL APPLIANCE DEALERS IN THE COMING REDDY RANGER 25 PROMOTION, OCTOBER 14 THROUGH NOVEMBER 2. VISIT YOUR APPLIANCE DEALER AND LOOK OVER THE MANY BEAUTIFUL NEW STYLES HE OFFERS IN MODERN ELECTRIC RANGES. TRY ONE, ONE TIME, AND YOU'LL NEVER GO BACK TO OLD STYLE COOKING. ELECTRIC COOKING IS SO MUCH COOLER... AMAZINGLY CLEANER AND SURPRISINGLY EASY. EVERYTHING TURNS OUT PERFECT BECAUSE AUTOMATIC CONTROLS SUPPLY EXACTLY THE HEAT CALLED FOR. BY ALL MEANS TAKE A GOOD LOOK AT A FLAMELESS ELECTRIC RANGE WHEN YOU VISIT YOUR DEALERS. IT'S THE APPLIANCE MODERN WOMEN LOVE THE MOST!

# NOTICE . . . . . Free!

Flameless electric heat lets you use the valuable space in your new home for family fun or enjoyment. All that is required with most electric heat systems is a compact electrical service entrance like the one in the closet at the right. And electric heating systems which provide warmth by wire can be easily expanded to serve new additions to the home.

## Students to Get More Tickets

FAYETTEVILLE, Ark. (AP) — The University of Arkansas yielded Wednesday to student demands for tickets to the Arkansas-Texas football game at Little Rock the night of Oct. 19.

And school officials sent off a second request to the National Collegiate Athletic Association's television committee for an exception to NCAA rules so the top-flight Southwest Conference game can be televised.

Between 400 and 500 students demonstrated in an orderly manner at the university last Saturday, voicing their demand for tickets.

The Arkansas Traveler, the student newspaper, reported that 3,000 students lacked tickets to the game. The shortage set off an uproar for the game to be televised.

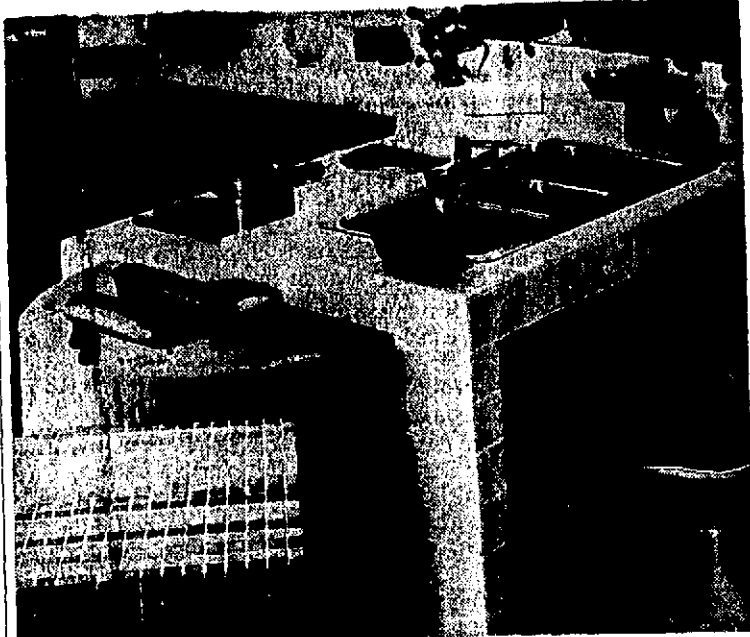

The NCAA approved televising of the Texas-Oklahoma game (this Saturday, even though a game only 55 miles away was not a sell-out and was not to be televised. This is in violation of NCAA rules, an exception was made since all arrangements had been made before the oversight was noted.

D. Whitney Halladay, Dean of Students at the university, said arrangements had been made with Allen Berry, manager of War Memorial Stadium in Little Rock, for 350 additional seats for the Arkansas-Texas game. He said the university band will sit on field bleachers, and that some 250 other temporary seats had been erected at the south end of the stadium.

Application blanks will be available to students in today's edition of the Traveler, Halladay said, but to get tickets students must produce their identification cards, which were punched earlier this year during ticket purchases.

Halladay said students with unpunched cards will be eligible for tickets. It may be necessary to allot tickets with drawings, he said.

Howard Grubbs, executive secretary of the Southwest Conference, said Wednesday night the request by the university had been forwarded to NCAA executive sec-

**FASHION TREND** in modern homes is use of durable, easily cleaned ceramic tile for heavy use areas of the kitchen. Because it is waterproof, heatproof, stainproof and scratchproof, tile is used around the sink and countertop stove units, on the lunch-bar-divider partially shown in the left foreground and on the floors. Kitchen was designed by noted architect Harris Armstrong of St. Louis.

## Modern Electric Kitchens Save Time and Energy

Judging by the number of families who buy Gold Medalion Homes with all-electric kitchens, today's homemakers are happy to give up the nostalgia of the past for the convenience of modern electric appliances.

But convenience isn't the only advantage of a modern kitchen. Today's housewives know that it also makes them better cooks. The old-time flavor of good food is still there—it's just easier to get consistently.

In one area—size—yesterday's kitchen did have an edge, but the extra space was not to be poorly arranged. Today's kitchens, on the whole, are better laid out to save steps, time and energy.

Expert kitchen planners often advise arranging a kitchen around a work triangle, with the three major electric appliances: refrigerator-freezer, range, and dishwasher-sink. This step-saving plan limits most of the walking in the kitchen to the food storage and preparation center, the cooking center, and the clean-up area. Even in a large kitchen, the "sides" of the triangle, measuring from range to refrigerator-freezer to sink, should total no more than 22 feet.

The electric range is usually the focal point in the kitchen, much as the open hearth was in Colonial days. The variety of electric ranges available today makes planning easy and provides for great flexibility in ar-

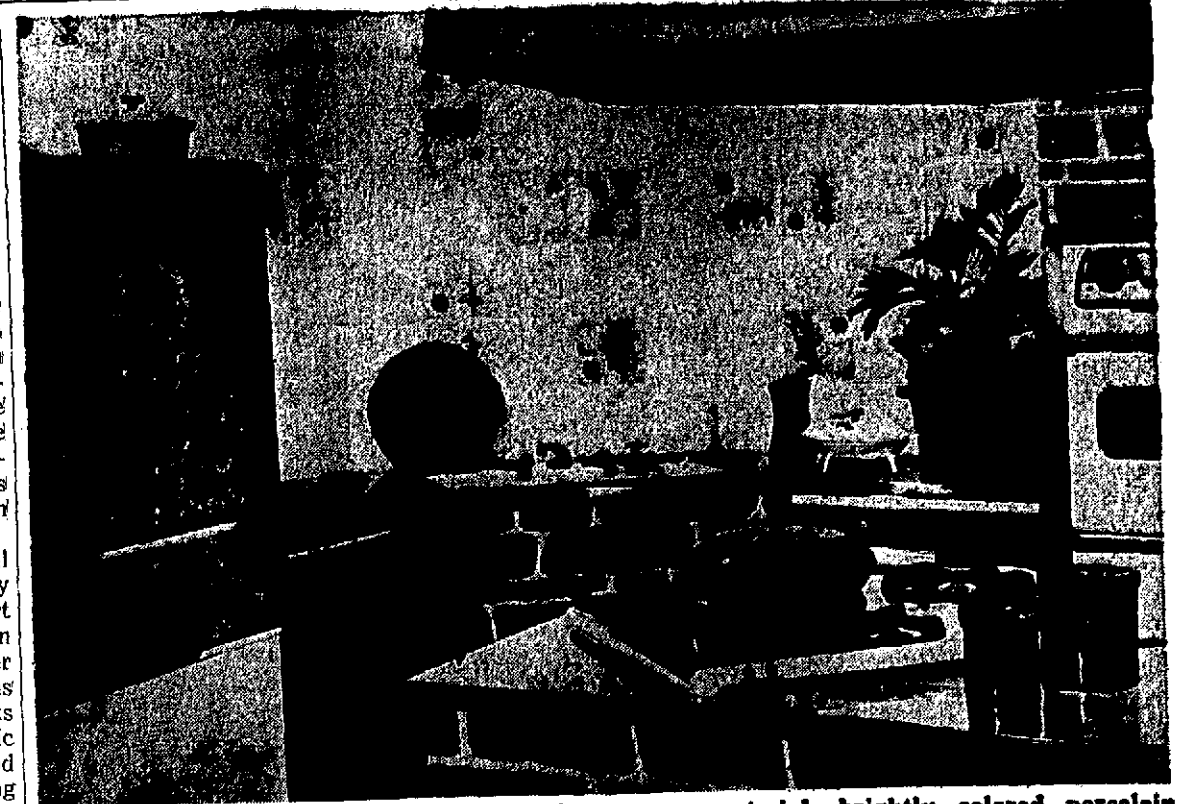

ranging a new kitchen or modernizing an old one.

There are high-oven ranges with double or single oven at eye level, free-standing models, one-piece built-ins, and built-in models with cook tops and ovens located in separate areas. Separate built-in units offer the widest latitude in planning, since the surface elements can be placed in a counter top, while the oven or ovens can be placed at eye level in a wall or cabinet.

Whatever the type, almost all models of electric ranges today have automatic timers to start and stop the cooking even when you're not there; all are easier to clean because of sleek designs that eliminate dirt-catching cracks and crevices. Accurate, automatic controls assure consistently good results, even for the beginning cook.

Equally helpful to the homemaker are the new roomy refrigerator-freezers, with their greatly increased storage capacities. Features of the new units include automatic ice makers, large crispers to keep lettuce and vegetables fresh for a week or more, moveable shelves, compartments that keep butter fresh but spreadable, and large zero zone freezer sections.

Many of the new units never need to be defrosted. This feature eliminates altogether the messy business of defrosting, prevents frozen food packages from sticking together, and keeps frost from obscuring labels and stealing food storage space. With a virtual

**COLORFULLY DECORATIVE** yet highly durable, porcelain enamel can add new dimensions to kitchen decor. This model at the National Design Center in New York shows range hood sheathed in yellow porcelain, black-and-white counter tops in the

same material, brightly colored porcelain range-to-table ware and a refrigerator with unique silk-screen print fused into the porcelain finish. Even the walls are porcelain-on-aluminum tile.

## People in News Over the World

By THE ASSOCIATED PRESS

**HELSINKI (AP)**—The International Sibelius Prize, worth \$27,000, has been awarded to Igor Stravinsky, 81-year-old composer. Carl T. Rowan, U.S. ambassador to Finland, accepted the prize for Stravinsky in Helsinki. The award, named for Finnish composer Jean Sibelius, is awarded annually by the Finnish Wihuri Fund for Arts and Science.

**BRUSSELS (AP)**—Queen Frederika of Greece will not oppose the marriage of her 44-year-old brother, Prince Christian of Hainover, to a teen-aged Belgian commoner, says the father of the bride-to-be.

Armand L. Dutry, wealthy Belgian, said he would be more likely to come Friday.

gian industrialist, told newsmen in Brussels: "I can say one thing: There is not the least opposition."

Mireille Dutry, 71, tall and attractive, finger her engagement ring—a ruby in a cluster of diamonds—and said:

"I am not afraid of it. The difference in age is of no importance at all."

**TAIPEI, Formosa (AP)**—"We must wipe out the disgrace which we have suffered for the past 14 years," Chiang Kai-shek told crack units of his Chinese Nationalist army today.

Speaking to the troops on the 52nd anniversary of the revolution which established the Republic of China, Chiang, 76, said conditions for an invasion of Communist China are ripening.

**CAIRO (AP)**—Ceylon's prime minister, Mrs. Sirimavo Bandaranaike, arrived in Cairo for a four-day official visit to the United Arab Republic.

His plane was held up two hours at Colombo, capital of Ceylon, after police got an anonymous tip that a bomb was aboard. No bomb was found.

# How Lion saves you up to 3¢ a gallon

5 grades...5 prices...  
choose the one gasoline  
blended in the pump  
exactly to fit your car

where you see  
this pump...

Now you can select the one grade of top-quality Lion Gasoline that runs your car at its best. No more power than your engine can use—and no less than it needs!

The lower the octane rating your car needs, the more you can save—1¢, 2¢, even 3¢ a gallon—every time you buy gas! From now on, you can stop wasting money on octane rating your car can't possibly use.

On the other hand, don't buy ordinary regular

gas when your car calls for a higher grade. The lower grade may damage your engine.

This is the smart new way to buy gasoline—each grade blended right in the new Lion selector pump—only at your Lion Oil Dealer.

Change to Lion Octane-Blended Gasoline—and keep the change.
